### No power / won't get into programming mode

If you **don't** see connection interface. Make sure (PESIP) is connected to vehicle's battery, not constant battery. Otherwise, disconnect it all.

### The (PESIP) controls the stereo immediately without pressing any buttons on the steering wheel

During programming, press the buttons on the steering wheel fully with the (PESIP) turn off. Releasing the button too early will cause the (PESIP) to send out a signal even when no buttons are pressed.

### The (PESIP) controls the radio when on the steering wheel is turned (mostly late 80's early 90's Honda/Acura)

Program button (PESIP) 2 for version 4.1.

### When you't program a new button the previous button does not work

When programming, all buttons during programming. If you try to program another button, all previous button will be stored. You will have to release all previous buttons again.
