Spending, or cash outflows, is also impacted to some extent by your financial mindset. There is a psychological aspect of personal finance that, once understood, can help control unnecessary spending.

An extension of the personal cash flow statement is the personal budget. A budget is simply a cash flow statement based on forecasted cash flows for a future period. Developing a budget helps to determine whether future cash inflows will be sufficient to cover cash outflows. A budget can help determine the excess cash that will be available for investment,
