

Nursing Personal Statement Example

Growing up, I could never picture myself doing anything but becoming a nurse. My mother was a nurse, and her mother before that. I would sit all day and listen to their stories about the touching and inspiring moments that happened to them daily, as well as the heartbreaking experiences they had. It was this real human connection that made me fall in love with the idea of nursing as my profession. It is my goal to be able to use my skills and comfort to aid people in the healing process. Attending nursing school will provide me the skills and knowledge I need to make this dream a reality.

I have had many experiences in a hospital setting that have prepared me for working as a nurse. In high school and college, I spent many summers interning at a local hospital as a nurse's assistant. I was responsible for the set up of equipment and even administering various diagnostic tests. In addition, as an undergraduate I also volunteered as an emergency medical services technician, where I learned to stabilize various traumas in critical situations. I have a bachelors of science in Biology, which signifies my understanding of many underlying biological concepts behind the ailments that nurses treat daily. I look forward to bringing my experiences and knowledge into nursing school to further refine and hone them.

In nursing school, I not only expect to gain knowledge, but also to learn a new way of thinking. I understand that no two situations are alike, and many times a patient will present a myriad of symptoms that require a combination of approaches. I hope to be able to gain practical experience to learn how to work cooperatively with other doctors and nurses to provide the most comfortable experience for the patient.
