**The World of Science Education**, 2009-01-01 Each volume in the 7 volume series The World of Science Education reviews research in a key region of the world These regions include North America South and Latin America Asia Australia and New Zealand Europe and Israel Arab States and Sub Saharan Africa The focus of this Handbook is on science education in Arab states and the scholarship that most closely supports this program The reviews of the research situate what has been accomplished within a given field in an Arab rather than an international context The purpose therefore is to articulate and exhibit regional

networks and trends that produced specific forms of science education The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing face of problems and solutions within regional contexts The approach allows readers to review what has been done and accomplished what is missing and what might be done next

**The 1990 British Columbia Mathematics Assessment** P. J. Gaskell, British Columbia. Ministry of Education and Ministry Responsible for Multiculturalism and Human Rights. Research and Evaluation Branch, 1993 The focus of this study is on the participation rates of girls in senior level mathematics and physical science courses rather than on achievement It also emphasizes differences between boys and girls and how gender shapes a decision about whether or not to enrol in a subject area such as algebra or physics It looks at the girls and boys own constructions of their reasons for enrolling or not enrolling in the courses Finally it focuses on secondary schools

**Multilingual Education Yearbook 2021** Anthony A. Essien, Audrey Msimanga, 2021-05-04 This edited book attempts to foreground how challenges and complexities between policy and practice intertwine in the teaching and learning of the STEM subjects in multilingual settings and how they policy and practice impact on educational processes developments and outcomes The unique feature of this book thus lies in its combination of not just language issues in the teaching and learning of the STEM subjects but also in how these issues relate to policy and practice in multilingual contexts and how STEM research and practice may inform and shape language policies and their implementation in multilingual contexts This book is of interest to stakeholders involved in STEM education such as researchers undergraduate and graduate students tertiary level teachers teacher educators curriculum developers as well as other professionals with responsibilities in STEM education subjects The book is written in a way that is accessible to a wide range of backgrounds including those who are in language education
