that in the works of Degas Mondrian Bacon Schiele and Warhol serial iteration articulates a process of free constructive becoming which they interpret in different ways Not only does the serially iterative structure of the images show that activity and novelty are primary concerns but it involves the viewer in the activity presented in the images For these reasons serial iteration is fundamentally connected both to modernist aspects of the work and to other concerns such as the structure of subjectivity and the movement of history Serially iterative structure opens up the meaning of these five artists images by relating them to concerns in contemporary art and thought
