

Fig Heart Dissection Instructions

Follow these instructions carefully to dissect your heart. Discuss each question with your partner. We will discuss these questions further in class so please consider them carefully.

1. The heart has 4 chambers:
 - The right and left atria
 - The right and left ventricles

See if you can identify these 4 chambers on your heart. Use the diagrams below to help you.

Figure 1 Ventral (front) view of the heart. The pulmonary vein and vena cava enter the atria on the dorsal (back) side of the heart so are not visible on this diagram.

Figure 2 Heart (Posterior View)

How do you know where the atria end and the ventricles begin? Discuss with your partner what external clues you have used to figure out where these chambers are.
