Pillaging The World:

Pillaging the World Ernst Wolff, 2014-10-22 Depriving entire generations of their hopes for a better future the International Monetary Fund IMF has risen to become the world's most powerful international financial organization Blackmailing countries and pillaging whole continents for almost seven decades now its history resembles a modern day crusade against the working people on five continents In his highly compelling account journalist Ernst Wolff specifies the dramatic consequences of the IMF's practice of loan sharking and implementing neoliberal austerity measures While exacerbating poverty increasing hunger furthering the spread of diseases and fuelling armed conflicts on the one hand the Fund's policies have on the other hand helped a tiny group of ultra rich profiteers increase their vast fortunes to immeasurable dimensions allegedly in the name of ensuring the stability of the global financial system Ernst Wolff born in 1950 spent his early childhood in South East Asia went to school in Germany and studied history and philosophy in the US He has worked in various professions including journalism translating and screenwriting The interrelation between economics and politics a subject he has been working on for four decades has become of paramount significance to him The financial crisis of 2008 and the euro crisis were mere precursors of an impending financial tsunami whose destructive power the IMF and its allies will most certainly use as a pretext for globally imposing measures the likes of which we cannot even vaguely imagine at present

Pillaging the Empire Kris E Lane, Kris Lane, Robert M. Levine, 2015-07-24 Between 1500 and 1750 European expansion and global interaction produced vast wealth As goods traveled by ship along new global trade routes piracy also flourished on the world's seas Pillaging the Empire tells the fascinating story of maritime predation in this period including the perspectives of both pirates and their victims Brushing aside the romantic legends of piracy Kris Lane pays careful attention to the varied circumstances and motives that led to the rise of this bloodthirsty pursuit of riches and places the history of piracy in the context of early modern empire building This second edition of Pillaging the Empire has been revised and expanded to incorporate the latest scholarship on piracy maritime law and early modern state formation With a new chapter on piracy in East and Southeast Asia Lane considers piracy as a global phenomenon Filled with colorful details and stories of individual pirates from Francis Drake to the women pirates Ann Bonny and Mary Read this engaging narrative will be of interest to all those studying the history of Latin America the Atlantic world and the global empires of the early modern era

Imperial Reincarnation: I Came, I Saw, I Survived Volume 2 Masekinokatasa, 2025-06-05 I command thee stand aside Having survived his first decade with the nobility none the wiser to his puppet emperor act it's finally time for Carmine to get his payback with interest And as his coronation swiftly approaches so too does the opportunity to purge the festering corruption within the Empire's upper echelons in a single fell swoop But as he makes his move sword in hand and allies by his side will his preparations prove enough Or will his attempt to seize back political power be consigned to history doomed to be forgotten like the names of so many too ambitious sovereigns of ages past Long live the emperor as

they say but it s looking dicey whether this particular emperor has another year left in him **The Ebk Pillaging the Empire** Lane, This introductory survey to maritime predation in the Americas from the age of Columbus to the reign of the Spanish king Philip V includes piracy privateering state sponsored sea robbery and genuine warfare carried out by professional navies **Pillaging Cambodia** Masha Lafont,2015-02-13 The illicit traffic of art is an important problem that affects modern life all over the world This work addresses the issue using the showcase of Cambodia where looters systematically destroy cultural heritage Beginning with an overview of Cambodian history and culture it explores every aspect of the illicit traffic of Cambodian art It analyzes the history size and structure of art trafficking in Cambodia its growth and profit margins and the participants and international crime syndicate involved It also describes the demand side of the story antique dealers collectors auction houses and museums The work deals with the impact of the illicit trafficking on the legal political and economic systems of Cambodia as well as its effect on archeological historical and religious values and the cultural identity of the nation The work also analyzes the current long term and short term policies proposed by the Cambodian government and suggests policy alternatives that may be implemented by the Cambodian authorities An appendix includes the description of all cases of the restitution of objects of Khmer art **Piracy in World History** Stefan Amirell,Hans Hägerdal,Bruce Buchan,2025-10-01 In a modern global historical context scholars have often regarded piracy as an essentially European concept which was inappropriately applied by the expanding European powers to the rest of the world mainly for the purpose of furthering colonial forms of domination in the economic political military legal and cultural spheres By contrast this edited volume highlights the relevance of both European and non European understandings of piracy to the development of global maritime security and freedom of navigation It explores the significance of legal posturing on the part of those accused of piracy as well as the existence of non European laws and regulations regarding piracy and related forms of maritime violence in the early modern era The authors in Piracy in World History highlight cases from various parts of the early modern world thereby explaining piracy as a global phenomenon *Seaboard* ,1922 *The World's Great Classics* ,1899 *The Nautical Gazette* ,1922 *Global Village Or Global Pillage* Jeremy Brecher,Tim Costello,1998 In clear accessible language Brecher and Costello describe how people around the world have started challenging the New World Economy From the Zapatistas of Chiapas to students in France to the broad based anti NAFTA and anti GATT coalitions in the United States opposition to economic globalization Brecher and Costello argue is becoming a worldwide revolt **World of Wonders** Alf Hildebeitel,2022 In World of Wonders Alf Hildebeitel addresses the Mahabharata and its supplement the Harivamsa through the critical lens of the Indian aesthetic theory of rasa juice essence or taste Rejecting the traditional reading of these texts he argues that the dominant rasa is adbhutarasa the mood of wonder The heart of his argument is that the Mahabharata and Harivamsa both deploy the terms for wonder and surprise vismaya in significant numbers that extend into every facet of these heterogeneous texts showing how adbhutarasa is at work in the rich
