Breadmaker Cycles

Your breadmaker has three bread cycles plus a dough program to choose from.

BASIC BREAD cycle - This cycle is great for most bread varieties, including rye and white breads. During this cycle, the Breadmaker will knead the dough twice, rise the dough twice, shape it and bake it to perfection.

WHEAT cycle - During this cycle the Breadmaker will knead the dough twice, rise the dough twice, rest and shape it, then bake it to perfection. The cycle requires more rising time and will produce shorter loaves because of the heavier flours used.

RAPID cycle - This cycle saves time on certain recipes by reducing the total time. The breads made using the rapid cycle will be overall shorter and more compact in texture.

DOUGH program - This cycle allows you to make hand-shaped breads as well as dough for pizza, dinner rolls, bagels, etc. to be baked in a conventional oven. During this cycle the bread machine will knead the dough twice and rise the dough once. This program does not bake.
