Tales from the Symphony Robert Lee Watt, 2024-05-15 This book contains conversations with nineteen African American classical musicians currently performing or who have previously performed in America's major symphony orchestras Each chapter focuses on the story of one musician and sheds light on the realities of African American musicians playing in a musical environment that absolutely forbade their membership over half a century ago These conversations explore the deeply ingrained prejudices that some hold against African American people in symphony orchestras conservatories and other musical institutions By amplifying these voices the book provides a variety of perspectives on the almost cloistered world of these beloved institutions The stories and lessons shared in this book will be invaluable to music students teachers and orchestral professionals

Ferguson, 1968-03-04 *Masterworks of the Orchestral Repertoire* was first published in 1968 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The fullest enjoyment of an orchestral performance or a record concert comes with a background of knowledge about the music itself This handbook is designed to help music lovers get the ultimate pleasure from their listening by providing them with that background about a large portion of the orchestral repertoire Professor Ferguson analyzes and interprets the most important classical symphonies overtures and concertos as well as selected orchestral works of modern composers He goes beyond a conventional analysis of structure since he believes with a majority of the music loving public that great music is actually a communication that it expresses significant emotions The great composers on their own testimony have striven not merely to create perfect forms but to interpret human experience Mingled with the analyses then the reader will find comments on the expressive purport of the music For twenty five years Professor Ferguson has supplied the program notes for the subscription concerts of the Minneapolis Symphony Orchestra and this volume is an outgrowth of that activity In preparing the material for book publication however he studied the musical compositions anew and the resulting chapters provide a much deeper exploration of the musical subjects than did the program notes The themes of important works are illustrated by musical notations and a brief glossary explains technical terms
