The story of Sydney's metropolitan food landscapes is one of dramatic transformations of First Nations land amidst jostles for power and wealth This book unearths Sydney's lost commercial agriculture since colonisation in 1788 to assess its fragile food futures Richly illustrated 270 images are encapsulated within 110 figures including an array of original metropolitan scale mappings Discussion traverses the city's diverse cultural influences from Indigenous land management to British pastoralism Chinese cultivation of Sydney's backyard vegetable garden and southern European farming spawning billion dollar empires The region has further been shaped by a vast array of cultural and ideological factors and material practices with relevance to planning policy ethics geography heritage art design and technology This book is the first to bring Sydney's disparate post colonial food histories together in one volume to explore the dynamics and tensions between urban growth and food production The relevance of Sydney's food landscapes therefore extends far wider than the city itself with implications for countless regions worldwide in a time of increasing climate and resource precarity

Decolonising Medieval Fennoscandia Solveig Marie Wang, 2023-03-20 The interdisciplinary study investigates the relationship between Norse and Saami peoples in the medieval period and focuses on the multifaceted portrayal of Saami peoples in medieval texts The investigative analysis is anchored in postcolonial methodologies and argues for the inherent need to decolonise the medieval source material as well as recent historiography This is achieved by presenting the historiographic and political background of research into Norse Saami relations before introducing an overview of textual sources discussing Saami peoples from the classical period to the late 1400s an analysis of the textual motifs associated with the Saami in medieval literature their relevance and prevalence geo political affairs trading relations personal relations and Saami presence in the south By using decolonising tools to read Norse Saami relations in medieval texts influenced by archaeological material and postcolonial frameworks the study challenges lingering colonial assumptions about the role of the Saami in Norse society The current research episteme is re-adjusted to offer alternative readings of Saami characters and emphasis is put on agency fluidity and the dynamic realities of the Saami medieval pasts *Reimagining Christendom* Joel D. Anderson, 2023-01-03 With its expanding legal system and its burgeoning throngs of lawyers legates and documents the

papacy of the thirteenth and fourteenth centuries has often been credited with spearheading a governmental revolution that molded the high medieval church into an increasingly disciplined uniform and machine like institution Reimagining Christendom offers a fresh appraisal of these developments from a surprising and distinctive vantage point Tracing the web of textual ties that connected the northern fringes of Europe to the Roman see Joel D Anderson explores the ways in which Norse writers recruited refashioned and repurposed the legal principles and official documents of the Roman church for their own ends Drawing on little known vernacular sagas Reimagining Christendom is populated with tales of married bishops fictitious and forged papal bulls and imagined canon law proceedings These narratives Anderson argues demonstrate how Norse writers adapted and reconfigured the institutional power of the church in order to legitimize some of the thoroughly abnormal practices of their native bishops In the process Icelandic clerics constructed their own visions of ecclesiastical order visions that underscore the thoroughly malleable character of the Roman church s text based government and that articulate diverse ways of belonging to the far flung imagined community of high medieval Christendom
