Williams,Keryn E Pasch,Chiquita A. Collins,2013-02-12 Rates of childhood obesity are alarmingly high and increasing each year Studies have shown that obese children are more likely to become obese adults and are likely to suffer with numerous health consequences like coronary heart disease high blood pressure and Type II diabetes among others

Studies also indicate that television viewing and exposure to advertising for food products influences children's attitudes toward food preferences and food purchase requests for foods with low nutritional value. It is important to better understand the role of media in childhood obesity and to learn how media may be used to address this issue in a positive way. This book focuses on communication and media research that can have an impact on reducing childhood obesity. Emphasis is placed on topics related to how the media communicate health-related messages about food nutrition and diet that influence childhood obesity. Particular emphasis is on the new media given the fact that media now have more central roles in socializing today's children and youth than ever before. Advertising and marketing messages reach young consumers through a variety of vehicles: broadcast and cable television, radio, magazines, computers through the Internet, music, cell phones, and in many different venues: homes, schools, child care settings, grocery stores, shopping malls, theaters, sporting events, and even airports. In addition, given the disparity in obesity rates between children of color and the general population, special attention is given to research on media targeting these populations. **Strategic Review of the Egyptian Goodwill Committee Advancing child-friendly justice in Egypt** OECD, 2024-10-02. The Goodwill Committee is an Egyptian governance body established within the Ministry of Justice to facilitate the amicable resolution of international parental child abduction cases. Its primary mission is to protect individual rights and promote global co-operation. This report evaluates the Committee's mandate and composition to help Egypt promote child-friendly justice and ensure that the best interests of children are embedded in Committee processes. To support comprehensive reform, the OECD assessment and recommendations focus on three areas: improving existing governance, considering multilateral ratification, and developing mechanisms to address systemic barriers and deter the occurrence of cases. [White Mother to a Dark Race](#) Margaret D. Jacobs, 2009-07-01. In the late nineteenth and early twentieth centuries, indigenous communities in the United States and Australia suffered a common experience at the hands of state authorities: the removal of their children to institutions in the name of assimilating American Indians and protecting Aboriginal people. Although officially characterized as benevolent, these government policies often inflicted great trauma on indigenous families and ultimately served the settler nations' larger goals of consolidating control over indigenous peoples and their lands. *White Mother to a Dark Race* takes the study of indigenous education and acculturation in new directions in its examination of the key roles white women played in these policies of indigenous child removal. Government officials, missionaries, and reformers justified the removal of indigenous children in particularly gendered ways by focusing on the supposed deficiencies of indigenous mothers, the alleged barbarity of indigenous men, and the lack of a patriarchal nuclear family. Often they deemed white women the most appropriate agents to carry out these child removal policies. Inspired by the maternalist movement of the era, many white women were eager to serve as surrogate mothers to indigenous children and maneuvered to influence public policy affecting indigenous people. Although some white women developed caring relationships with indigenous children, and others became critical of

government policies many became hopelessly ensnared in this insidious colonial policy      *Study Guide for Jones & Bartlett Learning's Administrative Medical Assisting* Julie Ledbetter,2020-04-23 Designed to ensure that every medical assisting graduate can quickly trade a cap and gown for a set of scrubs Jones Bartlett Learning s Administrative Medical Assisting Fourth Edition is more than just a textbook it s an engaging dynamic suite of learning resources designed to train medical assisting students in the administrative skills they ll need in today s rapidly changing health care environment
