Property Aram Sinnreich,2019-05-28 A broad introduction to the changing roles of intellectual property within society Intellectual property is one of the most confusing and widely used dimensions of the law By granting exclusive rights to publish manufacture copy or distribute information and technology IP laws shape our cultures our industries and our politics in countless ways with consequences for everyone including artists inventors entrepreneurs and citizens at large In this engaging accessible study Aram Sinnreich uncovers what s behind current debates and what the future holds for copyrights

patents and trademarks The Cambridge Handbook of Technical Standardization Law Jorge L. Contreras, 2017-12-14

Technical standards are ubiquitous in the modern networked economy. They allow products made and sold by different vendors to interoperate with little to no consumer effort and enable new market entrants to innovate on top of established technology platforms. This groundbreaking volume edited by Jorge L. Contreras assesses and analyzes the legal aspects of technical standards and standardization. Bringing together more than thirty leading international scholars, advocates, and policymakers, it focuses on two of the most contentious and critical areas pertaining to standards today in key jurisdictions around the world: antitrust, competition law, and patent law. A subsequent volume will focus on international trade, copyright, and administrative law. This comprehensive, detailed examination sheds new light on the standards that shape the global technology marketplace and will serve as an indispensable tool for scholars, practitioners, judges, and policymakers everywhere.
