### Note-Taking Guide (CER)

Activity Title: Aquatic Ecosystems- Developing

| Activity Scoreboard<br>when finished, circle highest score achieved |   |   |   |   |   |
|---------------------------------------------------------------------|---|---|---|---|---|
| Attempt #                                                           | 1 | 2 | 3 | 4 | 5 |
| Date                                                                |   |   |   |   |   |
| Score                                                               |   |   |   |   |   |

|                                                                    |
|--------------------------------------------------------------------|
| <b>Claim:</b>                                                      |
| <b>There are different aquatic systems with diverse organisms.</b> |
|                                                                    |
|                                                                    |

| Evidence                                                                              | Reasoning/Justification                                                                   |
|---------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| Aquatic ecosystems have abiotic - temp, light, salinity, depth                        | Different organisms can tolerate different factors                                        |
| Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both | Bull sharks and manatees are very different, but tolerate same conditions                 |
| Depth reduces light and increases pressure. Organisms deal with this differently.     | Many types of adaptations exist to survive in these conditions                            |
| The geography of an aquatic environment can determine the life forms present.         | Continental shelf gets lots of light, so there's many living things. Not so in the abyss. |
| Photosynthesis takes place in the neritic zone.                                       | It is the most productive area of the ocean. Plankton are base of food chain.             |
| Metabolism is affected by temp. Many species are cold-blooded.                        | Organisms can migrate or must have adaptations to survive.                                |

## **Note Taking Guide Episode 11answer Key:**

## Embracing the Tune of Expression: An Psychological Symphony within **Note Taking Guide Episode 11answer Key**

In a global taken by screens and the ceaseless chatter of fast interaction, the melodic elegance and psychological symphony produced by the prepared term often disappear into the background, eclipsed by the relentless sound and distractions that permeate our lives. However, situated within the pages of **Note Taking Guide Episode 11answer Key** a marvelous literary treasure filled with organic thoughts, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, that captivating masterpiece conducts visitors on an emotional trip, skillfully unraveling the concealed melodies and profound influence resonating within each cautiously constructed phrase. Within the depths with this touching examination, we shall examine the book is main harmonies, analyze their enthralling publishing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
