Notre Dame de Paris the Eternal Cathedral Claude Gauvard, 2019 This book is not a work of art history It does not look at the construction of Notre Dame de Paris in terms of the complexity of its architecture or its sculptures it does not go into detail about its leaps in technology however innovative nor does it well on the audacity of its 19th century restoration either to praise it or to point out possible errors Although these topics are not overlooked this book is primarily concerned with telling the story of Notre Dame de Paris as it was in the Middle Ages But how can we rediscover in today's cathedral now visited by millions of people from across the world the medieval building frequented by the bishops and monks the kings in their nearby palace and the Parisians who lived in the shadow of its towers and its spire Notre Dame is a living building one that has been affected by the twists and turns of history It was neglected during the Renaissance transformed during the baroque era mutilated by revolutionary rage idealized by the Romantics and so gradually its medieval past disappeared under these successive layers of history Let us begin by raising the veil by leaving the present and returning to the past in an attempt to rediscover the initial project that in 1163 led Bishop Maurice de Sully to construct a new building in a new style

Notre-Dame de Paris Victor Hugo, 1999-09-02 Three extraordinary characters caught in a web of fatal obsession are at the centre of Hugo's novel The grotesque hunchback Quasimodo bell ringer of Notre Dame owes his life to the austere archdeacon Claude Frollo who in turn is bound by a hopeless passion to the gypsy dancer Esmeralda She meanwhile is bewitched by a handsome empty headed officer but by an unthinking act of kindness wins Quasimodo's selfless devotion Behind the central figures moves a pageant of picturesque characters ranging from the cruel superstitious king Louis XI to the underworld of beggars and petty criminals These disreputable trappings night time assault on the cathedral is one of the most spectacular set pieces of Romantic literature Hugo vividly depicts medieval Paris where all life is dominated by the massive cathedral His passionate enthusiasm for Gothic architecture is set within the context of an epic view of mankind's history to which he attaches even more importance than to the novel's compelling story Alban Kraitsir's new translation is a fresh approach to this monumental classic by France's most celebrated Romantic
