

**AUDITOR GENERAL'S ASSESSMENT
of Performance Information in the Canadian Food Inspection Agency's
2008–09 Performance Report**

**To the President of the Canadian Food Inspection Agency
and the Minister of Agriculture and Agri-Food**

What I Assessed

As required by the *Canadian Food Inspection Agency Act*, I have assessed the fairness and reliability of the Agency's performance information for 2008–09 with respect to the objectives established in its corporate business plan.

Management's Responsibility

The performance information reported in the Agency's performance report is the responsibility of management.

My Responsibility

My responsibility is to assess the fairness and reliability of the performance information included in the Agency's performance report against the objectives established in its corporate business plan.

My assessment covered only the specific performance information included in the section of its performance report titled "Analysis of Program Activities by Strategic Outcome." My assessment did not include the objectives set out in the corporate business plan or information referenced by web links included in the report. My responsibility does not extend to assessing or commenting on the Agency's actual performance.

The Nature of My Assessment

My assessment consisted of a review performed in accordance with the standards for assurance engagements established by the Canadian Institute of Chartered Accountants. The assessment consisted primarily of enquiry, analytical procedures, and discussion related to the performance information. I conducted this assessment using the criteria for the assessment of fairness and reliability described in the Annex.

An assessment based on a review provides a moderate level of assurance and does not constitute an audit. Consequently, I do not express an audit opinion on the Agency's performance information.

Conclusion

Based on my assessment, nothing has come to my attention that causes me to believe that the Agency's performance information for 2008–09, with respect to the objectives established in its corporate business plan, is not, in all significant respects, fair and reliable using the criteria described in the Annex to this report.

Performance Audit Manual Auditor General Canada:

Environmental Performance Auditing in the Public Sector Awadhesh Prasad, 2018-06-14 Environment and sustainable development challenges are a matter of global concern Trillions of dollars of mostly public money are invested every year in domestic and international policies and programs to address these challenges The effectiveness of these policies and programs is critical to environmental sustainability Performance audits that examine the effectiveness of governmental policies and programs heavily influence their implementation Despite this performance auditing in the environment field has received very little academic attention This book takes a closer look at performance auditing of public sector environmental policies and programs It examines trends in global environmental performance auditing and how it is currently practiced drawing on a global survey and case studies from Canada India and Australia In doing so it identifies issues and challenges faced by Supreme Audit Institutions in undertaking these performance audits This book will be of interest to students scholars and practitioners of sustainable development environmental auditing and public sector auditing as well as to donor organisations engaged in these areas Performance Auditing Jeremy Lonsdale, Peter Wilkins, Tom Ling, 2011-01-01 It is time 15 years on from the coining of the Audit Explosion to re appraise the growth of new forms of auditing As we move into what might be called Auditing in Austerity this book gives us that overview An extremely well informed team of authors has been assembled to deliver a comparative analysis that successfully mixes insider and outsider perspectives This should be required reading not just for auditors and their academic hangers on but for the wider audience of those interested in contemporary developments in democratic accountability and policymaking Christopher Pollitt Catholic University of Leuven Belgium This book fills an important gap in the market At a time when governments around the world face the largest deficits in decades there is a strong need to reduce public expenditures whilst ensuring greater value for money from public services This book addresses these concerns and many more Each of the chapter authors is a senior practitioner and or an academic who specialises in performance auditing and accountability in modern complex democracies They explore the nature of the concepts which underlie current practice set out a variety of institutional structures and processes and identify the limits of both theory and practice These make this a book of considerable significance and one which makes an important contribution to our understanding of the democratic process This is not a narrowly focused book only of interest to those who specialise in performance auditing Given the richness of its analysis and the fine grained understanding of institutions and processes it has much to say to students of public administration management and policy analysis I am confident that this will rapidly become the standard reference for those who are interested in performance auditing Peter M Jackson AcSS University of Leicester UK What a good read Insightful and challenging It is likely to incite a lot of discussion on the wide ranging views from the very well informed and qualified contributors not least from those who actually have to implement the findings and recommendations of performance audit reports The focus is rightly on

accountability for performance not only in achieving government program objectives in an economic efficient and effective manner but also on the audit institutions themselves It should be welcomed by the public sector and particularly by the parliamentary institutions concerned with achieving accountability for government performance Pat Barrett AO Australian National University and former Australian Auditor General 1995 2005 This book is a much welcome tonic for public administration It is one of the few books that explicitly focus on how audit institutions carry out their performance auditing responsibilities While auditors will likely read this the authors have geared the book to a broader readership including public managers who are often the subject of performance audits From the foreword by Paul Posner George Mason University US This state of the art book examines the development of performance audit drawing on the experience in a number of different countries including the United Kingdom the United States Australia the Netherlands and Belgium The expert contributors identify the trajectory of performance audit examine how it is conducted and consider what it is contributing to effective government They conclude that in the face of new challenges performance auditors should focus both on their core responsibilities to ensure accountability and continue to develop more insightful and sophisticated approaches to enable them to assess the growing complexity of the delivery of public services By doing so they can continue to play a valuable role in democratic accountability Providing an up to date overview and discussion of performance audit this highly topical book will appeal to all those working within audit academics working in the fields of public management and public administration as well practitioners in and close to state audit institutions Members of Parliament evaluators internal auditors researchers policy analysts and consultants will also find this book invaluable

Fiscal Choices Michael M. Atkinson,Haizhen Mou,2024-03-01 The COVID 19 pandemic revealed that governments can quickly respond to a fiscal crisis without becoming mired in unproductive wrangling But the pandemic has also revealed the limits of traditional policy instruments in stabilizing the economy controlling inflation and fostering economic growth Fiscal Choices sheds light on the economic dimensions of COVID 19 and examines the state of Canada s fiscal policy and fiscal health following the pandemic The book covers a cluster of key fiscal policy topics the overall capacity of government the growth of inequalities the management of sovereign debt and the troubled institutions of federalism and parliamentary government The book draws upon candid in depth interviews with over 70 former and current politicians public servants and academic experts who aim to establish a sustainable future within an accountable political system The book argues that although those who are entrusted with the instruments of power are intelligent and well meaning they are reluctant to take risks or abandon well known if poorly performing formulas It concludes with a set of predictions and prescriptions rooted in a realistic interpretation of Canada s political economy Ultimately Fiscal Choices presents a sober assessment of federalism and parliamentary government as instruments of democratic accountability *Evaluation* Jan-Eric Furubo,2018-02-06 Evaluation has come of age Today most social and political observers would have difficulty imagining a society where evaluation is not a fixture of daily life from individual programs to local authorities to parliamentary committees While university researchers grant makers and public servants may think there are too many types of evaluation rankings and

reviews evaluation is nonetheless viewed positively by the public. It is perceived as a tool for improvement and evaluators are seen as dedicated to using their knowledge for the benefit of society. The book examines the degree to which evaluators seek power for their own interests. This perspective is based on a simple assumption: If you are in possession of an asset that can give you power, why not use it for your own interests? Can we really trust evaluation to be a force for the good? To what degree can we talk about self-interest in evaluation and is this self-interest something that contradicts other interests such as the benefit of society? Such questions and others are addressed in this brilliant innovative international collection of pioneering contributions.

Evaluation Cultures Sense-making in Complex Times Jean-Claude Barbier, Penny Hawkins, 2012-09-25 Evaluation Cultures draws upon a sample of reflections drawn from organizational practices nationally centered political cultures and ethnic cultures as a framework for understanding how culture influences the work of evaluation. Two main conclusions seem to emerge: first that there exists no single uniform and homogenous national evaluation culture; second that the idea of a unified transnational culture of evaluation is an illusion. The evaluation community includes a diverse group of professionals a diversity that is not just represented in national or ethnic culture but also in academic backgrounds public and private sector allegiances and personal character. The contributors to this book represent in part this diversity by reflecting a range of views. Evaluation Cultures draws upon the experience of senior evaluation practitioners who share their reflections on their practice and experience in order to put forth challenges to purely academic analysis. Evaluation Cultures presents a consistent if not exhaustive attempt to give analytical and empirical sense to all of the cultures of the evaluation community.
