Personal Credit Report United Kingdom:

Changing Consumer Law in the United Kingdom after Brexit? Katharina Steinbrück, 2021-06-14 Dem britischen Gesetzgeber eröffnen sich durch den weitgehenden Wegfall von Bindung an EU Recht im Verbraucherrecht neue regulatorische Möglichkeiten. Dieses Werk widmet sich der Frage, ob Normen des bisher von der EU bestimmten Verbraucherkredit und AGB Rechts beibehalten oder geändert werden sollten. Eine historische Analyse beantwortet die Frage, inwieweit EU Recht in der Vergangenheit durch das Vereinigte Königreich gestaltet und rezipiert wurde. Auf Grundlage einer umfassenden rechtsvergleichenden Betrachtung wird zudem analysiert, ob alternative europäische Kooperationsmodelle mehr regulatorischen Freiraum bieten und die Nicht-Umsetzung von Verbraucherrecht als Vorbild für neue Regulierung im Vereinigten Königreich dienen könnten.

The Politics of Consumer Credit in the UK, 1938-1992 Stuart Aveyard, Paul Corthorn, Sean O'Connell, 2018-08-30 As early as the 1930s Britain had a highly innovative and profitable mortgage sector that promoted a major extension in home ownership. These controversial and risky offerings had an equivalent in numerous hire purchase agreements with which new homes were furnished. Such developments were forerunners of the easy credit regime more commonly associated with the 1980s. Taking a long term perspective on this issue indicates that Britain's departure from European models of consumer credit markets was not simply a by-product of neoliberalism's influence on the Thatcher administration and this book offers a much fuller explanation to the phenomenon. It explores debates within and between the major political parties, reveals the infighting amongst civil service departments over management of consumer demand, charts the varying degrees of influence wielded by the Bank of England and finance capital as opposed to that of consumer durable manufacturers, reviews the perspectives of consumers and their representatives and explains the role of contingency and path dependency in these historical events. The central focus of this book is on consumer credit but this subject provides a case study through which to explore numerous other important areas of British history. These include debates on the issues of post-war consensus, the impact of rising home ownership and its impact on consumer credit and personal finance markets, the management of consumer society, political responses to affluence, the development of consumer protection policy and the influence of neoliberalism.

Credit Data and Scoring Eric Rosenblatt, 2020-01-07 Credit Data and Scoring: The First Triumph of Big Data and Big Algorithms illuminates the often hidden practice of predicting an individual's economic responsibility. Written by a leading practitioner, it examines the international implications of US leadership in credit scoring and what other countries have learned from it in building their own systems. Through its comprehensive contemporary perspective, the book also explores how algorithms and big data are driving the future of credit scoring. By revealing a new big picture and data comparisons, it delivers useful insights into legal, regulatory and data manipulation.
