Personal Effects Deborah Holdstein:

Personal Effects Deborah Holdstein, David Bleich, 2002 Holdstein and Bleich compile a volume that cuts across the grain of current orthodoxy. These editors and contributors argue that it is fundamental in humanistic scholarship to take account of the personal and collective experiences of scholars, researchers, critics, and teachers. They contend that humanistic inquiry cannot develop successfully at this time without reference to the varieties of subjective, inter-subjective, and collective experience of teachers and researchers. In composition studies, they point out an important strand of theory has continuously mined the personal experience of individual writers where they stand, even in a destabilised sense of that idea. Such substantive accounts of the inner academic life provide appropriate and rich contexts for further study and analysis. With this volume, then, these scholars move us to explore the intersections of the social with subjectivity, with voice, ideology, and culture, and to consider the roles of these in the work of academics who study writing and literature. Taken together, the essays in this collection carry forward the idea that the personal, the candidly subjective, and inter-subjective must be part of the subject of study in humanities scholarship. They propose an understanding of the personal in scholarship that is more helpful because more clearly anchored in human experience.

Compelling Confessions Suzanne Diamond, 2010-12-10 **Compelling Confessions** The Politics of Personal Disclosure is a collection of essays whose shared purpose is to offer an accessible interdisciplinary exploration of the social dynamics behind confessional discourse. As various contributors to this collection demonstrate, confession is ubiquitous in contemporary culture, not only within psychological or therapeutic frameworks or literary analysis, but also in internet discussion groups, in the criminal justice system, in political rhetoric, in so-called reality and interview style television programming, in writing pedagogy, and increasingly in the testimonial strain observable in contemporary scholarship. Yet telling one's story raises questions not only about authorial intent or authenticity, but also about the pressures disclosure can impose upon its audiences. Far less ubiquitous than confessions themselves, as these contributors suggest, are the critical tools that general audiences might employ in order to better evaluate the rhetoric of personal disclosure. It is in fact the shortage of such tools, responses, and procedures that could be stated plainly and implemented by any reader or viewer that **Compelling Confessions** sets out to address.

Autobiographical Writing Across the Disciplines Diane P. Freedman, Olivia Frey, 2004-01-23 An anthology of the personal autobiographical essays of scholars who have made the life story an important part of their disciplinary research.

Self+Culture+Writing Rebecca Jackson, Jackie Grutsch McKinney, 2021-09-21 Literally translated as self-culture writing, autoethnography as both process and product holds great promise for scholars and researchers in writings studies who endeavor to describe, understand, analyze, and critique the ways in which selves, cultures, writing, and representation intersect. **Self Culture Writing** foregrounds the possibility of autoethnography as a viable methodological approach and provides researchers and instructors with ways of understanding, crafting, and teaching autoethnography within writing studies. Interest in autoethnography is growing.

Make Yourself a Teacher Susan Handelman, 2011-12-20 *Make Yourself a Teacher* is a teaching book and a book about teaching It discusses three dramatic well known stories about the student and teacher Rabbi Eliezer ben Hyrcanus from the Oral Torah The stories of R Eliezer serve as teaching texts and models for reflection on the teacher student relationship in the Jewish tradition and in contemporary culture with special emphasis on the hevruta mode of Jewish learning a collaborative process that invites the reader into a dialogue with teachers past and present Susan Handelman considers how teacher student relations sustain and renew the Jewish tradition especially during troubled times As a commentary on historical and contemporary educational practices she asks a range of questions about teaching and learning What is it that teachers do when they teach How do knowledge spirituality and education relate What might Jewish models of study and commentary say about how we teach and learn today Handelman not only presents

pedagogical issues that remain controversial in today's debates on education but she also brings the stories themselves to life Through her readings the stories beckon us to sit among the sages and be their student **The Materiality of Language**

David Bleich, 2021-12-22 A critique of male dominated modes of language use their roots in higher education their effects and their spill over into popular culture David Bleich sees the human body its affective life social life and political functions as belonging to the study of language In *The Materiality of Language* Bleich addresses the need to end centuries of limiting access to language and its many contexts of use To recognize language as material and treat it as such argues Bleich is to remove restrictions to language access due to historic patterns of academic censorship and unfair gender practices

Language is understood as a key path in the formation of all social and political relations and becomes available for study by all speakers who may regulate it change it and make it flexible like other material things A potentially foundational text in an emergent field of language studies whose work is to break up the monopoly Linguistics and Philosophy have had on the study of language The insight that the affective operation of language is elided in nearly all approaches to language acquisition is brilliant and astounding The analysis of subject creation as an affective process of recognizing and sharing the same affective state and language as the means for materializing affective states is fascinating and persuasive One of the book's distinctive features is the use of gender as a key normative analytical lens throughout It would be difficult to exaggerate how rare this is among language thinkers and how productive it is for the arguments here Mary Louise Pratt New York University A powerful first rate book on a crucial topic It offers a great interpretation of the sacralization and ascendancy of Latin as a language supporting what Bleich calls an elite group of men This is a brilliant codebook to academic language and its coercions Dale Bauer University of Illinois b DESC literary theory semiotics literary criticism philosophy language philosophy philosophy of language gender studies social science language studies communication studies language arts language disciplines gender sex language rhetoric academic language colloquial language language political aspects language sex differences language and gender LIT006000 LITERARY CRITICISM Semiotics Theory PHI038000 PHILOSOPHY Language SOC032000 SOCIAL SCIENCE Gender Studies LAN004000 LANGUAGE ARTS DISCIPLINES Communication Studies 9780253016508 Well
