Moore,2010-09-08 Award winning essayist Scott Russell Sanders once compared the art of essay writing to the pursuit of mental rabbits a rambling through thickets of thought in search of some brief glimmer of fuzzy truth While some people persist in the belief that essays are stuffy and antiquated the truth is that the personal essay is an ever changing creative medium that provides an ideal vehicle for satisfying the human urge to document truths as we experience them and share them with others to capture a bit of life on paper Crafting the Personal Essay is designed to help you explore the flexibility and power of the personal essay in your own writing This hands on creativity expanding guide will help you infuse your nonfiction with honesty personality and energy You ll discover An exploration of the basics of essay writing Ways to step back and scrutinize your experiences in order to separate out what may be fresh powerful surprising or fascinating to a reader How to move past private journaling and write for an audience How to write eight different types of essays including memoir travel humor and nature essays among others Instruction for revision and strategies for getting published Brimming with helpful examples exercises and sample essays this indispensable guide will help your personal essays transcend the merely private to become powerfully universal *Authentic Writing* Jeffrey Rice,2021-04-20 In typical academic circles texts must be critiqued mined for the obfuscated meanings they hide and shown to reveal larger broader meanings than what are initially evident To engage in this type of writing is to perform an authentic version of scholarship But what if a scholar chooses instead to write without critique What if they write about travelling their children food grocery shopping frozen garlic bread sandwiches condiments falafel yoga and moments that normally wouldn t be considered scholarly Can the writing still be scholarly Can scholarly writing be authentic if its topics comprise the everyday In *Authentic Writing* Jeff Rice uses this question to trace a position regarding critique the role of the scholar the role of the personal in scholarship the banal as subject matter and the idea of authenticity He explores authenticity as a writing issue a rhetorical issue a consumption issue a culture issue and an ideological issue Rather than arguing for a more authentic state or practice Rice examines the rhetorical features of authenticity in order to expand the focus of scholarship **Catalogue** State University of Iowa,1925 **Scenes of Shame** Joseph Adamson,Hilary Anne Clark,1999-01-01 Explores the role of shame as an important affect in the complex psychodynamics of literary and philosophical works Critical Expressivism Tara Roeder,Roseanne Gatto,2015-04-15 Critical Expressivism is an ambitious attempt to re appropriate intellectual territory that has more often been charted by its detractors than by its proponents Indeed as Peter Elbow observes in his contribution to this volume As far as I can tell the term expressivist was coined and used only by people who wanted a word for people they

disapproved of and wanted to discredit The editors and contributors to this collection invite readers to join them in a new conversation one informed by a belief that the term expressivism continues to have a vitally important function in our field

writing altogether the author reflects ultimately on what it really takes to become a writer of literary fiction This essay which makes up the first part of this work is complemented by a selection of witty short stories forming the second part and which have been used as templates in the teaching context Personal Effects Deborah Holdstein, David Bleich, 2002 Holdstein and Bleich compile a volume that cuts across the grain of current orthodoxy These editors and contributors argue that it is fundamental in humanistic scholarship to take account of the personal and collective experiences of scholars researchers critics and teachers They contend that humanistic inquiry cannot develop successfully at this time without reference to the varieties of subjective inter subjective and collective experience of teachers and researchers In composition studies they point out an important strand of theory has continuously mined the personal experience of individual writers where they stand even in a destabilised sense of that idea Such substantive accounts of the inner academic life provide appropriate and rich contexts for further study and analysis With this volume then these scholars move us to explore the intersections of the social with subjectivity with voice ideology and culture and to consider the roles of these in the work of academics who study writing and literature Taken together the essays in this collection carry forward the idea that the personal the candidly subjective and inter subjective must be part of the subject of study in humanities scholarship They propose an understanding of the personal in scholarship that is more helpful because more clearly anchored in human experience **Identity and**

Resources in Education , 1998-04 College Writing and Beyond Anne Beaufort, 2008-02-06 Composition research consistently demonstrates that the social context of writing determines the majority of conventions any writer must observe Still most universities organize the required first year composition course as if there were an intuitive set of general writing skills usable across academic and work world settings In College Writing and Beyond A New Framework for University Writing Instruction Anne Beaufort reports on a longitudinal study comparing one student's experience in FYC in history in engineering and in his post college writing Her data illuminate the struggle of college students to transfer what they learn about general writing from one context to another Her findings suggest ultimately not that we must abolish FYC but that we must go beyond even genre theory in reconceiving it Accordingly Beaufort would argue that the FYC course should abandon

its hope to teach a sort of general academic discourse and instead should systematically teach strategies of responding to contextual elements that impinge on the writing situation Her data urge attention to issues of learning transfer and to developmentally sound linkages in writing instruction within and across disciplines Beaufort advocates special attention to discourse community theory for its power to help students perceive and understand the context of writing
