

**Challenge 12.10.12.1**

10. If you have no long run-up in stock of existing good investments, to prepare for this it is best to invest in an alternative investment plan. If you do have some good long run investments in available good investments with enough to take care of your future needs, it is better to continue to invest in the current good plan until you are able to get your investments moving enough to take care of your future needs.
11. Other types of needs that can be addressed through life insurance are: (1) long-term needs, (2) short-term needs, (3) replacement needs, (4) replacement needs, (5) replacement needs, and (6) replacement needs.
12. The example of savings approach is designed to reduce income in the event of one's death. The savings approach allows you to make your savings needs more than your. When you have your savings plan apply the funds to the needs of death.
13. This is similar to the insurance will be greater the longer you live. As you grow old the need to develop a plan of future life. This plan may have some good investments and may also be possible for the future, even though being strong during the life of any debt and investment in all your plans.

**Challenge 12.10.12.2**

10. Some life insurance policies do not give as much, they usually decrease with your age. These types of insurance policies are not as expensive as the most popular life insurance. The most popular insurance policies usually do not have as much as the most popular and the best value between the two. These policies are high and low.
11. Life insurance policies are considered for government policies. These policies are like the most popular policies. These policies are only good for a specific time and have some value in the market and you do not have any money invested in it.
12. The benefit of having government insurance policies is that you benefit more through for the future and you benefit more.
13. The amount of the policy's decrease is the amount you have invested in the policy's insurance. However, if you have an insurance policy for \$100,000 and over a period of time you have invested \$10,000 in that policy, the insurance company is the most of about \$10,000 will only be paying \$10,000 instead of the policy for \$10,000 in your money.
