Recipe Using Fresh Pineapple:

The Pineapple from Domestication to Commodification Victoria Avery, Melissa Calaresu, 2025-10-15 The pineapple's discovery by European colonisers in the late fifteenth century and its remarkable global trajectory from an early modern object of rarity desire and horticultural innovation to a cheap canned consumable and fair trade logo today is a story of modern globalisation The Pineapple from Domestication to Commodification is a wide ranging interdisciplinary volume intended to provoke timely debate and generate radical rethinking of an overly familiar fruit with associations from luxury to kitsch It deliberately problematizes the pineapple by investigating understudied tensions between its representational power and the historical and political contexts of its worldwide production and consumption This connects the global and local at the heart of contemporary debates about the nature and origins of our food It will have cross disciplinary appeal for scholars of politics economics history plant sciences food and material culture as well as for broader audiences interested in food gardening the environment and visual arts
