Record A Story Not Working:

Opening the Bible Antony Campbell, 2014-08-30 When Tony Campbell aged 75 asked the Council of Jesuit Theological College for Emeritus status and retirement from JTC both were granted most graciously along with a testimonial document which said in part His teaching has combined evocation and provocation in the best sense of those terms He has mentored research students with scholarly exactitude and personal care He has published books of the highest scholarly quality of engaging readability and of passionate conviction When we at ATF were considering asking him for a volume of Collected Works or Selected Writings we were well aware that published books of the highest scholarly quality were likely to be found on the shelves of libraries and of specialised academics but not with students and others generally interested There may be a dozen or more of Tony s books on the list from Amazon com booksellers along with another two or three that are not listed there But most are heavy duty specialist works not easily accessible even to the educated public We were equally well aware that there was a surprising number of essays and articles scattered in journals and proceedings of conferences that were because of the scattering often just as inaccessible We thought that a collection of these in a single volume would be of great value to those interested In the Introduction to this volume Father Campbell has gone into some detail about the contents Suffice for us to say that Job and the issues associated with suffering concern us all that the interplay of history and narrative is a constant in the understanding of much biblical text and that the nature of the Bible and its role in our lives is a major concern for most thinking Christians While Father Campbell s focus is on the Older Testament pondering what he looks at throws light on much of the Newer Testament as well The writings Tony Campbell has pulled together in this single volume address significant issues within the readable length of an article or a talk Addressed originally to thinking people we at ATF believe they are likely to be of interest to a wide audience
