The cover art features two characters in a field of tall yellow grass. On the left, a woman with dark skin, short dark hair, and small white horns stands in a dynamic pose, holding a long red staff. She wears a white blazer over a white crop top and white shorts. On the right, a younger woman with light skin and brown hair stands with her hands on her head, looking upwards with an expression of surprise or concern. She wears a simple red t-shirt. In the background, a large, pale, crescent-shaped moon hangs in a light blue sky. The overall style is a blend of comic book illustration and painterly textures.

Clover, John Lindow, 2019-06-30 The current revival of interest in the rich and varied literature of early Scandinavia has prompted a corresponding interest in its background its origins social and historical context and relationship to other medieval literatures Even readers with a knowledge of Old Norse and Icelandic have found these subjects difficult to pursue however for up to date reference works in any language are few and none exist in English To fill the gap six distinguished scholars have contributed ambitious new essays to this volume The contributors summarize and comment on scholarly work in the major branches of the field Eddie and skaldic poetry family and kings sagas courtly writing and mythology Taken together their judicious and attractively written essays each with a full bibliography make up the first book length survey of Old Norse literature in English and a basic reference work that will stimulate research in these areas and help to open up the field to a wider academic readership

command of Captain Henry Gloval endured many heartbreaks and hard won victories because of his crew of heroes chief among them ace fighter pilot Roy Fokker his younger brother Rick Hunter and Gloval s trusted XO Lisa Hayes Unexpectedly a young singer named Lynn Minmei became a symbol for peace and hope for both humans and Zentraedi alike as the two species began to realise that they were not so different as they thought The First Robotech War ended with the destruction of the SDF 1 and its sister ship the SDF 2 at the hands of the mad Zentraedi tyrant Khyron during his infamous suicide attack Now a legendary hero who lost nearly everything during the war Rick Hunter must face a new threat rising from the ashes of history and take to the skies once more **Cowboy Bebop #1** Dan Watters,2022-01-26 In the year 2071 the Earth is uninhabitable and humanity has colonized most planets and moons in the Solar System Amid a rising crime rate the Inter Solar System Police ISSP set up a legalized contact system in which bounty hunters known as Cowboys hunt and capture criminals in return for a cash reward The crew of the spaceship Bebop are just a few of these Cowboys **Iron Age Myth and Materiality** Lotte Hedeager,2011-04-29 Iron Age Myth and Materiality an Archaeology of Scandinavia AD 400 1000 considers the relationship between myth and materiality in Scandinavia from the beginning of the post Roman era and the European Migrations up until the coming of Christianity It pursues an interdisciplinary interpretation of text and material culture and examines how the documentation of an oral past relates to its material embodiment While the material evidence is from the Iron Age most Old Norse texts were written down in the thirteenth century or even later With a time lag of 300 to 900 years from the archaeological evidence the textual material has until recently been ruled out as a usable source for any study of the pagan past However Hedeager argues that this is true regarding any study of a society s short term history but it should not be the crucial requirement for defining the sources relevant for studying long term structures of the *longue durée* or their potential contributions to a theoretical understanding of cultural changes and transformation In Iron Age Scandinavia we are dealing with persistent and slow changing structures of worldviews and ideologies over a wavelength of nearly a millennium Furthermore iconography can often date the arrival of new mythical themes anchoring written narratives in a much older archaeological context Old Norse myths are explored with particular attention to one of the central mythical narratives of the Old Norse canon the mythic cycle of Odin king of the Norse pantheon In addition contemporaneous historical sources from late Antiquity and the early European Middle Age the narratives of Jordanes Gregory of Tours and Paul the Deacon in particular will be explored No other study provides such a broad ranging and authoritative study of the relationship of myth to the archaeology of Scandinavia **Robotech: Rick Hunter** Brandon Easton,2024-08-06 Legendary hero Major General Rick Hunter thought at last he could rest but from the ashes of the first Robotech War a new threat arises Along with ace pilot Vince Grant Rick s Pegasus squadron is sent to investigate rumours of rogue Zentraedi warriors who threaten to upset the peace established between humans and their new alien allies As the SDF3 nears completion the whole project is put into jeopardy by the unwelcome face of an enemy long thought dead Written

by Brandon Easton and illustrated by Simone Raggazoni the next instalment of the legendary Robotech franchise is here featuring all the epic mecha battles and heartfelt moments fan love Collects Robotech Rick Hunter 1 4 **The Northern Earldoms** Barbara E. Crawford, 2013-08-08 The medieval earldoms of Orkney and Caithness were positioned between two worlds the Norwegian and the Scottish They were a maritime lordship divided or united by the turbulent waters of the Pentland Firth This unlikely combination of island and mainland territory survived as a single lordship for 600 years against the odds Growing out of the Viking maelstrom of the early Middle Ages it became an established and wealthy principality which dominated northern waters with a renowned dynasty of earls Despite their peripheral location these earls were fully in touch with the kingdoms of Norway and Scotland and increasingly subject to the rulers of these kingdoms How they maintained their independence and how they survived the clash of loyalties are themes explored in this book from the early Viking age to the late medieval era when the powerful feudal Sinclair earls ruled the islands and regained possession of Caithness This is a story of the time when the Northern Isles of Scotland were part of a different national entity which explains the background to the non Gaelic culture of this locality when links across the North Sea were as important as links with the kingdom of Scotland to the south *This Unfriendly Soil* Neil MacKinnon, 1989-01-01 Loyalists in Nova Scotia hoped that their anticipated prosperity to be achieved with British aid would show that the American rebellion had been a terrible mistake But prosperity was elusive The loyalists were disappointed not only by their treatment at the hands of the British government their reluctant benefactor but also by the apparent unwillingness of the government and the people of Nova Scotia to recognise their sacrifice and encourage their advancement This sense of opposition from the existing community made their experience different from that of loyalists elsewhere and contributed to the intensity and longevity of Nova Scotia's loyalist tradition The early period of loyalist settlement came to a close shortly after Britain gained portable pensions and withdrew free provisions a turn of events which led many of the exiles to return to their homeland By 1791 relations with the old settlers and the provincial government changing attitudes toward the United States and conflict among themselves had modified loyalist opinions and expectations in ways they would never have imagined a decade earlier

Author and Title Index** ,1975 *Robotech Archives: Sentinels Volume 2* Tom Mason,Chris Ulm,2021-12-14 Rick and Lisa Hunter are back along with their crewmates and their deadliest enemies as the explosive Robotech Sentinels saga continues The crew of the SDF 3 have barely survived a war against their greatest foes the evil Invid Stranded in space for five years on the severely damaged ship the crew must also face a fresh attack from the Robotech Masters and the arrival of the mysterious Sentinels but are the Sentinels friend or foe Collecting together the complete Robotech II The Sentinels Book Two 1 21 originally from 1990 1993 This massive 512 page volume includes never before seen sketches by John and Jason Waltrip Kudos to Titan for bringing this back not just for old fans but for younger anime lovers looking to get into a piece of history with a fine lineage and big story 5 out of 5 But Why Tho **Viking-Age Trade** Jacek Gruszczyński,Marek Jankowiak,Jonathan Shepard,2020-10-06 That there was an influx of silver dirhams from the Muslim world into eastern and northern Europe in the ninth and tenth centuries is well known as is the fact that the largest concentration of hoards is on the Baltic island of Gotland Recent discoveries have shown that dirhams were reaching the British Isles too What brought the dirhams to northern Europe in such large numbers The fur trade has been proposed as one driver for transactions but the slave trade offers another complementary explanation This volume does not offer a comprehensive delineation of the hoard finds or a full answer to the question of what brought the silver north But it highlights the trade in slaves as driving exchanges on a trans continental scale By their very nature the nexuses were complex mutable and unclear even to contemporaries and they have eluded modern scholarship Contributions to this volume shed light on processes and key places the mints of Central Asia the chronology of the inflows of dirhams to Rus and northern Europe the reasons why silver was deposited in the ground and why so much ended up on Gotland the functioning of networks perhaps comparable to the twenty first century drug trade slave trading in the British Isles and the stimulus and additional networks that the Vikings brought into play This combination of general surveys presentations of fresh evidence and regional case studies sets Gotland and the early medieval slave trade in a firmer framework than has been available before
