The End of the Beginning W.J. Dumbrell, 2001-01-10 *The Sketch, the Tale, and the Beginnings of American Literature* Lydia G. Fash, 2020-03-31 Accounts of the rise of American literature often start in the 1850s with a cluster of great American novels Hawthorne's *The Scarlet Letter* Melville's *Moby Dick* and Stowe's *Uncle Tom's Cabin* But these great works did not spring fully formed from the heads of their creators All three relied on conventions of short fiction built up during the culture of beginnings the three decades following the War of 1812 when public figures glorified the American past and called for a patriotic national literature Decentering the novel as the favored form of early nineteenth century national literature Lydia Fash repositions the sketch and the tale at the center of accounts of American literary history revealing how cultural forces shaped short fiction that was subsequently mined for these celebrated midcentury novels and for the first novel published by an African American In the shorter works of writers such as Washington Irving Catharine Sedgwick Edgar Allan Poe and Lydia Maria Child among others the aesthetic of brevity enabled the beginning idea of a story to take the outsized importance fitted to the culture of beginnings Fash argues that these short forms with their ethnic exclusions and

narrative innovations coached readers on how to think about the United States past and the nature of narrative time itself Combining history print history and literary criticism this book treats short fiction as a vital site for debate over what it meant to be American thereby offering a new account of the birth of a self consciously national literary tradition

Yesterday, a Chronicle of Early Life in the West Charles Edward Weller,1921 The Old Testament Rolf Rendtorff,1991-01-01 The Old Testament is a collection of writings which came into being over a period of more than a thousand years in the history of the people of Israel and which reflect the life of the people in this period Therefore there is a reciprocal relationship between the writings or books of the Old Testament and the life of Israel in its history The understanding of the texts presupposes insights into the historical context and the development of the life of Israelite society while at the same time the texts themselves are the most important indeed for the most part the only source for it This Introduction attempts to take account of this reciprocal relationship The first part deals with the history of Israel However its approach differs from most accounts of this history It takes the Old Testament texts themselves as a starting point and first of all outlines the picture of historical developments and associations which the texts present An attempt is then made on this basis to reconstruct historical developments by introducing material from outside the Bible This method of working leads to close connections between the second and third parts because it has to take account of the nature and original purpose of the texts and their function within the biblical books as they are now The second part attempts to present the texts collected in the Old Testament as expressions of the life of Israel The third part discusses the books of the Old Testament in their present form **The Gentleman's Magazine, and Historical Chronicle, for the Year ...** ,1827 **The Commercial & Financial Chronicle** ,1924 **The Chronicle** ,1873 **Enchantment and Dis-enchantment in Shakespeare and Early Modern Drama** Nandini Das,Nick Davis,2016-12-08 This volume addresses dealings with the wondrous magical holy sacred sainted numinous uncanny auratic and sacral in the plays of Shakespeare and contemporaries produced in an era often associated with the irresistible rise of a thinned out secular rationalism By starting from the literary text and looking outwards to social cultural and historical aspects it comes to grips with the instabilities of enchanted and disenchanted practices of thinking and knowledge making in the early modern period If what marvelously stands apart from conceptions of the world s ordinary functioning might be said to be enchanted is the enchantedness weakened empowered or modally altered by its translation to theatre We have a received historical narrative of disenchantment as a large scale early modern cultural process inexorable in character consisting of the substitution of a rationally understood and controllable world for one containing substantial areas of mystery Early modern cultural change however involves transpositions recreations or fresh inventions of the enchanted and not only its replacement in diminished or denatured form This collection is centrally concerned with what happens in theatre as a medium which can give power to experiences of wonder as well as circumscribe and curtail them addressing plays written for the popular stage that contribute to and reflect significant contemporary

reorientations of vision awareness and cognitive practice The volume uses the idea of disenchantment re-enchantment as a central hub to bring multiple perspectives to bear on early modern conceptualizations and theatricalizations of wonder the sacred and the supernatural from different vantage points marking a significant contribution to studies of magic witchcraft enchantment and natural philosophy in Shakespeare and early modern drama *The Mission of the Early Church to Jews and Gentiles* Jostein Ådna, Hans Kvalbein, 2000 This volume is based on a symposium held at the School of Mission and Theology in Stavanger Norway in 1998 on The Mission of the Early Church to Jews and Gentiles Four authors discuss the question of the mission to the Jewish people with particular regard to the gospel of Matthew and the Great Commission Further papers address different phases and aspects of early mission Finally the volume contains four essays relating to the Acts of the Apostles and to the Pauline letters **The Chronicle of the London Missionary Society**, 1892 **The Free Church Chronicle**, 1906 **The Old Testament Between Theology and History** Niels Peter Lemche, 2008-01-01 From its inception at the time of the Enlightenment until the mid twentieth century the historical critical method constituted the dominant paradigm in Old Testament studies In this magisterial overview Niels Peter Lemche surveys the development of the historical critical method and the way it changed the scholarly perception of the Old Testament In part 1 he describes the rise and influence of historical critical approaches while in part 2 he traces their decline and fall Then in part 3 he discusses the identity of the authors of the Old Testament based on the content of the literature they wrote demonstrating that the collapse of history does not preclude critical study Part 4 investigates the theological consequences of this collapse and surveys Old Testament and biblical theology in its various manifestations in the twentieth century An appendix includes a history of Palestine from the Stone Age to modern times constructed without recourse to the Old Testament **Missionary Chronicle**, 1844 *German Literature of the Early Middle Ages* Brian Murdoch, 2004 A detailed contextualized picture of the very beginnings of writing in German from around 750 to 1100 This second volume of the set not only presents a detailed picture of the beginnings of writing in German from its first emergence as a literary language from around 750 to 1100 but also places those earliest writings into a context The first stages of German literature existed within a manuscript culture so careful consideration is given to what constitutes the actual texts but German literature also arose within a society that had recently been Christianized through the medium of Latin Therefore what we understand by literature in Germany at this early period must include a great amount of writing in Latin Thus the volume looks in detail at Latin works in prose and verse but with an eye upon the interaction between Latin and German writings Some of the material in the newly written German language is not literary in the modern sense of the word but makes clear the difficulties and indeed the triumphs of the establishing of a written literary language Individual chapters look first at the earliest translations and functional literature in German including charms and prayers next the examination of heroic material juxtaposes the Hildebrandlied with the Christian Ludwigslied and with Latin writings like Waltharius and the panegyrics Otfrid's work the Gospel poem in German is

given its due prominence the smaller German texts and the later prose works are fully treated as is chronicle writing in German and Latin Old High German literature was a trickle compared to the flood of the Latin that surrounded and influenced it but its importance is undeniable that trickle became a river Contributors Linda Archibald Graeme Dunphy Stephen Penn Christopher Wells Jonathan West Brian Murdoch Brian Murdoch is Professor of German at the University of Stirling Scotland
