The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience **TARGET HIGH** DR MUTHUVENKATACHALAM S, DR AMBILI M VENKAT, 2017-06-30 Key Features Synopses of All Nursing Medical Subjects 2000 MCQs with Explanations 7500 Practice Qs of High Standard 500 New Qs 4500 Additional Practice Qs in App 500 New Qs 43 Recent Exams 2017 10 Solved Papers 11 New Papers 8 Color plates on Anatomical Illustrations All New Color Plates 55 Appendices containing Tables Flowcharts 10 New Appendices 200 Colored Image based Qs covering ECGs Instruments 70 New Qs New Subject added Basic Computer Applications How to Prepare for Staff Nurse Interview for Nursing Tutor Current Affairs 2017 General English by Subject Specialist General Aptitude **Engineering Technology, Engineering Education and Engineering Management** Deyao Tan, 2015-06-25 This volume contains papers presented at the International Conference on Engineering Technologies Engineering Education and Engineering Management ETEEEM 2014 Hong Kong 15-16 November 2014. The book will be of interest to academics and professionals in Engineering Technologies, Engineering Education, and Engineering Management The Boy Crisis Warren Farrell, John Gray, 2018-03-13 What is the boy crisis? It's a crisis of education. Worldwide, boys are 50 percent less likely than girls to meet basic proficiency in reading, math, and science. It's a crisis of mental health. ADHD is on the rise. And as boys become young men, their suicide rates go from equal to girls to six times that of young women. It's a crisis of fathering. Boys are growing up with less involved fathers and are more likely to drop out of school, drink, do drugs, become delinquent, and end up in prison. It's a crisis of purpose. Boys' old sense of purpose, being a warrior, a leader, or a sole breadwinner, are fading. Many bright boys are experiencing a purpose void, feeling alienated, withdrawn, and addicted to immediate gratification. So what is The Boy Crisis? A comprehensive blueprint for what parents

teachers and policymakers can do to help our sons become happier healthier men and fathers and leaders worthy of our respect
