Gateway Education Courses Analysis Report (August 2013) Abraxas Lee, Apple Ng, Eric Li, Sharon Yau, Vivian Luk, Zealitude, 2013-09-01 Gateway Education GE courses have been a compulsory part in undergraduate curriculum in City University of Hong Kong CityU since academic year 2011 12 This report analyse the course grades and workload levels of various GE courses using the comments posted in CityU GE Guide <http://cityuge.swiftzer.net> This report is not prepared by City University of Hong Kong and it is not affiliated with City University of Hong Kong Deep Violence Joanna Bourke, 2015-03-01 2014 marks the 100th anniversary of the declaration of the First World War and with it comes a deluge of books documentaries feature films and radio programs We will hear a great deal about the horror of the battlefield Bourke acknowledges wider truths war is unending and violence is deeply entrenched in our society But it doesn't have to be this way This book equips readers with an understanding of the history culture and politics of warfare in order to interrogate and resist an increasingly violent world Wounding the World investigates the ways that violence and war have become internalized in contemporary human consciousness in everything from the way we speak to the way our children play with one another to the way that we ascribe social characteristics to our guns and other weapons With a remarkable depth of insight Bourke argues for a radical overhaul of our collective stance towards militarism from one that simply aims to reduce violence against people to one that would eradicate all violence Her message is judicious and vital knowledge about weapons and the violence they bring has simply become too important to cast aside or leave to the experts Beating Captain Najor Todd R. Nelson, 2006-11-12 Weekly columns by an elementary school principal during his six years in a small town in Maine
