

The background of the cover is a surrealist painting of a city street. In the center, a man in a blue sweater and dark trousers walks away from the viewer. To his right, a woman in a yellow jacket and blue skirt walks towards him. On the left, a woman in a green top and red skirt is partially visible. In the foreground, a small white dog is walking. The scene is characterized by dark, swirling lines that seem to warp the perspective of the buildings and figures. The overall color palette is muted, with earthy tones and some brighter colors like the yellow jacket and red skirt.

Paths to Contemporary French Literature, Volume 1 John Taylor, 2005-04-27 Although the great French novelists of the last two centuries are widely read in America there is a widespread notion that little of importance has happened in French literature since the heyday of Sartre Camus and the nouveau roman Some might argue that even well read Americans are ignorant about what is happening in European literature generally Certainly there has never been so few translations of foreign books in the United States or so little coverage of foreign writers Curious American readers need new up to date information and analyses about what is happening elsewhere Paths to Contemporary French Literature is a stimulating and much needed guide to the major currents of one of the world s great literatures This critical panorama of contemporary French literature introduces English language readers to over fifty important writers and poets many of whom are still little known outside of France Emphasizing authors who are admired by their peers as opposed to those with overnight reputations John Taylor offers a compelling insider s view The pioneering essays included in this book offer incisive analyses of the ideas motivating current writing and delve into a writer s or poet s entire output Although some names may be familiar Marguerite Duras Hulne Cixous Philippe Jaccottet Henri Michaux the reader obtains fresh reappraisals of their seminal work Especially noteworthy however are Taylor s lively introductions to many other key writers who either have not yet crossed the English Channel let alone the Atlantic Combating the notion that French literature is overtly intellectual inaccessible or interested only in formal experimentation Taylor shows that many French writers are instead acutely inquisitive about the outside world shrewd observers of reality even very funny Although not conceived as a reference book the volume possesses some qualities of a reference work a good bibliography reliable dates and biographical facts Paths to Contemporary French Literature will be of interest to students of French literature and culture literary scholars and readers of contemporary fiction and poetry

The Architecture of Error Francesca Hughes, 2014-11-07 Why the rise of redundant precision in architecture and the accompanying fear of error are key to understanding the discipline s needs anxieties and desires When architects draw even brick walls to six decimal places with software designed to cut lenses it is clear that the logic that once organized relations between precision and material error in construction has unraveled Precision already a promiscuous term seems now to have been uncoupled from its contract with truthfulness Meanwhile error and the always political space of its dissent has reconfigured itself In The Architecture of Error Francesca Hughes argues that behind the architect s acute fetishization of redundant precision lies a special fear of physical error What if we were to consider the pivotal cultural and technological transformations of modernism to have been driven not so much by the causes its narratives declare she asks as by an unspoken horror of loss of control over error material life and everything that matter stands for Hughes traces the rising intolerance of material vagaries from the removal of ornament to digitalized fabrication that

produced the blind rejection of organic materials the proliferation of material testing and the rhetorical obstacles that blighted cybernetics Why is it she asks that the more we cornered physical error the more we feared it Hughes s analysis of redundant precision exposes an architecture of fear whose politics must be called into question Proposing error as a new category for architectural thought Hughes draws on other disciplines and practices that have interrogated precision and failure citing the work of scientists Nancy Cartwright and Evelyn Fox Keller and visual artists Gordon Matta Clark Barbara Hepworth Rachel Whiteread and others These non architect practitioners she argues show that error need not be excluded and precision can be made accountable

Georges Perec's Geographies Charles Forsdick, Andrew Leak, Richard Phillips, 2019-10-14 Georges Perec novelist filmmaker and essayist was one of the most inventive and original writers of the twentieth century A fascinating aspect of his work is its intrinsically geographical nature With major projects on space and place Perec s writing speaks to a variety of geographical urban and architectural concerns both in a substantive way including a focus on cities streets homes and apartments and in a methodological way experimenting with methods of urban exploration and observation classification enumeration and taxonomy

Reading Matters Joseph Tabbi, Michael Wutz, 2018-05-31 The convergence of twentieth century narrative and technology is one of the most important developments in current literary study A decade after the founding of the Society for Literature and Science and the appearance of such influential books as Kathleen Woodward s Culture of Information and William Paulson s The Noise of Culture Joseph Tabbi and Michael Wutz have edited a landmark volume to summarize this still emerging field Twelve original essays and the editors introductory overview show how these theoretical concerns can contribute to the practical study of narrative Reading Matters covers the range of contemporary literature from the canonical novels of high modernism and postmodernism through subjects new to the academic agenda such as cyberpunk and hypertext fiction In an age that has proclaimed the death of the novel many times over the contributors argue persuasively for the continued vitality of literary narrative By responding in ingenious ways to the capabilities of other media they assert the novel has enlarged and redefined its territory of representation and its range of techniques and play while maintaining its viability in the new media assemblage

Women and Home in Cinema Louise Radinger Field, 2024-03-14 This book explores visions of home in cinema and the ways in which women inhabit the onscreen realm Looking closely at a range of films made between 1936 and 2013 it examines how filmmakers reconfigure studio sets and real locations through the filmmaking process into mutable

onscreen domains imbued with depth metaphor and expressivity The book studies the films through the lens of four filmmaking processes in particular d coupage mise en sc ne sound and editing Close analysis reveals how filmmakers use these cinematic building blocks to shape onscreen worlds charged with emotion and animated by the warp and weft of psychic life Images of home abound in the cinema and women frequently find themselves at the core of both structures Drawing on recent spatial and feminist enquiry the book reviews the idea of home as a fixed and stable location and illustrates how the art of cinema is well equipped to explore home as an imaginary as well as a material realm With its emphasis on film practice as a route into critical reflection this book will be of interest to filmmakers film theorists and those who simply want to understand more about how films work

The Play of Light Ann Smock,2021-02-01 Drawing from five contemporary French poets Jacques Roubaud Emmanuel Hocquard Danielle Collobert Anne Portugal and Jacques Jouet Ann Smock juxtaposes them and provides a milieu suitable for philosophical reflection on identity on not being and being on communication and on secrets Smock also includes thinkers such as Ludwig Wittgenstein and Giorgio Agamben who contribute to the conversation as do Jean Luc Nancy and Maurice Blanchot Though the poems considered here are often thought difficult Smock maintains a light touch throughout She writes in an accessible even pleasurable style while contributing to the scholarly study of literature at the border shared by poetry and philosophy

The Baroque Night Spencer Golub,2018-09-15 In The Baroque Night authorial idiosyncrasy hybridizes the concepts of baroque and noir across the fields of film theater literature and philosophy arguing for mental function as form as an impossible object a container in which the container itself is the thing contained The book is an experiment in thinking difference and thinking differently an ethics of otherness and the abstract Spencer Golub inverts the unreality of the real and the reality of fiction exposing the tropes of memory identity and authenticity as a scenic route through life that ultimately blocks the view The Baroque Night draws upon materials that have not previously been included in studies of either the baroque or film noir while offering new perspectives on other more familiar sources Leibniz s concepts of the monad and compossibility provide organizing thought models and death fear and mental illness cast their anamorphic images across surfaces that are deeper and closer than they at first appear Key characters and situations in the book derive from the works of Alfred Hitchcock Henri Georges Clozot Jean Pierre Melville Oscar Wilde Georges Perec Patricia Highsmith William Shakespeare Jean Racine Pierre Corneille and Arthur Conan Doyle among many others This is virtuality and reality for the phobic making it a fascinating and viable document of and episteme for the anxious age in which we always find ourselves

living though not yet fully alive This performance of suspect evidence speaks to and in the ways we are organically inauthentic the cause of our own causality and our own worst eyewitnesses to all that appears and disappears in space and time

Transcultural Joyce Karen Lawrence, 1998-08-13 In *Transcultural Joyce* a team of leading international scholars assess the afterlife of James Joyce and his writings within a multinational context How does Joyce haunt the works of later writers in diverse literary traditions How well does he translate from one culture and language to another This book considers Joyce's reincarnations in texts from Latin America Europe and South Asia *Transcultural Joyce* provides a fresh theoretical examination of conventional notions such as influence and translation and asks how Joyce is imported across particular cultural boundaries As a canonical modernist and colonial subject Joyce inhabits a borderline position that complicates his reception and revision by later writers This book accounts for his cultural place as specifically Irish and more postcolonial than previous studies have acknowledged Scholars and translators of Joyce also consider the formidable task of translating his work for a global audience

Suicide Edouard Levé, 2025-07-29 *Suicide* cannot be read as simply another novel it is in a sense the author's own oblique public suicide note a unique meditation on this most extreme of refusals Presenting itself as an investigation into the suicide of a close friend perhaps real perhaps fictional more than twenty years earlier Lev gives us little by little a striking portrait of a man with all his talents and flaws who chose to reject his life and all the people who loved him in favor of oblivion Gradually through Lev's casually obsessive pointillist beautiful ruminations we come to know a stoic sensible thoughtful man who bears more than a slight psychological resemblance to Lev himself But *Suicide* is more than just a compendium of memories of an old friend it is a near exhaustive catalog of the ramifications and effects of the act of suicide and a unique and melancholy farewell to life

Meaning David E. Cooper, 2014-12-18 *Meaning* is one of our most central and most ubiquitous concepts Anything at all may in suitable contexts have meaning ascribed to it In this wide ranging book David Cooper departs from the usual focus on linguistic meaning to discuss how works of art ceremony social action bodily gesture and the purpose of life can all be meaningful He argues that the notion of meaning is best approached by considering what we accept as explanations of meaning in everyday practice and shows that in these situations we are explaining the appropriate fit of an item whether a word or an artwork with something larger than or outside of itself This fuller account of meaning explores questions of the meaning of meaning and tackles issues such as whether meaning is just a misleading folk term for something more basic whether there really is meaning at all and whether we should strive for meaning or let our lives just be rather than mean By taking the problem of meaning out of the technical philosophy of language and providing a more general account Cooper is able to offer new insights into the import function and status of meaning that will be of interest not only to philosophers of language but to students and philosophers working in areas such as epistemology and metaphysics
