Queens of Academe Karen W. Tice, 2012-04-17 Higher education is an unlikely venue for showcasing ideals of femininity yet campus beauty pageants have increased in popularity in a cultural marketplace conjoining personal empowerment with beauty and style Karen Tice examines the desires and racial and political agendas that propel students onto collegiate catwalks

The Best Kind of College Susan McWilliams, John E. Seery, 2015-07-06 The fevered controversy over America s educational future isn t simply academic those who have proposed sweeping reforms include government officials politicians foundation officers think tank researchers journalists media pundits and university administrators Drowned out in that noisy debate are the voices of those who actually teach the liberal arts exclusively to undergraduates in our nation s small liberal arts colleges or SLACs The Best Kind of College attempts to rectify that glaring oversight As an insiders guide to the liberal arts in its truest form the volume brings together thirty award winning professors from across the country to convey in various ways some of the virtues the electricity and overall the importance of the small seminar face to face approach to education as typically featured in SLACs Before we in the United States abandon or compromise our commitment to the liberal arts oddly enough precisely at a time when our global competitors are discovering emulating and founding American style SLACs and new liberal arts programs we need a wake up call namely to the fact that the nation s SLACs provide a time tested model of educational integrity and success

[Fairness in EU Competition Policy : Significance and Implications](#) Damien Gerard, Assimakis Komninou, Denis Waelbroeck, 2020-06-03 The idea of fairness has recently re entered the policy discourse underpinning competition law enforcement in the EU and beyond Of course the term unfair can be found in the EU Treaty and the avoidance of consumers exploitation is the ultimate aim of competition principles Still the boundaries of fairness as a driver of competition enforcement appear unclear and for some dangerously flexible At the same time whilst the application of competition rules has over the years been focusing on restrictions to the competitive process with the effect of harming consumers a wave of cases recently brought or decided at EU and national level appear to be inspired by wide and somewhat elusive fairness considerations including non discrimination neutrality equality of opportunities natural justice or avoidance of abuse of law Reference can be made to cases relating to product design IP licensing geo blocking network neutrality

privacy concerns or fiscal justice This volume explores how fairness may guide competition enforcement what its significance may be in explaining recent trends and actual outcomes and what implications can be observed or expected by relying on a fairness standard in the design of substantive principles Associating lawyers and economists practitioners and academics it discusses the boundaries of fairness in a world where the rationality of markets has been profoundly shaken by recent crises

Quasicrystals D. P. DiVincenzo, Paul J. Steinhardt, 1999 Quasicrystals The State of the Art has proven to be a useful introduction to quasicrystals for mathematicians physicists materials scientists and students The original intent was for the book to be a progress report on recent developments in the field However the authors took care to adopt a broad pedagogical approach focusing on points of lasting value Many subtle and beautiful aspects of quasicrystals are explained in this book and nowhere else in a way that is useful for both the expert and the student In this second edition some authors have appended short notes updating their essays Two new chapters have been added Chapter 16 by Goldman and Thiel reviews the experimental progress since the first edition 1991 in making quasicrystals determining their structure and finding applications In Chapter 17 Steinhardt discusses the quasi unit cell picture a promising new approach for describing the structure and growth of quasicrystals in terms of a single repeating overlapping cluster of atoms

Casting a Giant Shadow Rachel S. Harris, Dan Chyutin, 2021-07-06 Film came to the territory that eventually became Israel not long after the medium was born Casting a Giant Shadow is a collection of articles that embraces the notion of transnationalism to consider the limits of what is Israeli within Israeli cinema As the State of Israel developed so did its film industries Moving beyond the early films of the Yishuv which focused on the creation of national identity the industry and its transnational ties became more important as filmmakers and film stars migrated out and foreign films filmmakers and actors came to Israel to take advantage of high quality production values and talent This volume edited by Rachel Harris and Dan Chyutin uses the idea of transnationalism to challenge the concept of a singular definition of Israeli cinema Casting a Giant Shadow offers a new understanding of how cinema has operated artistically and structurally in terms of funding distribution and reception The result is a thorough investigation of the complex structure of the transnational and its impact on national specificity when considered on the global stage
