The Essays Only You Can Write Irene Papoulis, 2023-10-17 The Essays Only You Can Write offers a perspective on essay writing that spotlights a writer's uniqueness. Resisting the perception that personal and academic writing are at odds with one another, it treats the impulse to write personally as potential fuel for a variety of writing purposes. The book encourages students to think like academics, pursuing their enthusiasms, trusting their ideas, and questioning their conclusions by leading them through three main writing assignments: a personal essay, an essay based on texts, and a research essay. Each chapter offers exercises and strategies for various stages in the pre-writing, drafting, and revision processes. Freewriting, extensive attention to planning, devising a structure and order of ideas that both promote and reflect engagement with a topic, developing rhetorical awareness and knowledge of conventions, and an advocacy for expressive, socially responsible writing are all central elements of the text's instruction. By acknowledging the emotions inherent in the writing process—many of which can muddle thinking: "I don't want anyone to see this," "what if I make mistakes," "what if the writing isn't good," "I don't want to be critiqued," etc.—Papoulis helps beginning college writers to navigate the psychological as well as the technical roadblocks that can get in the way of their best personal and academic writing.

Real World Writing for Secondary Students

Jessica Singer Early, Meredith DeCosta, 2014-01-01 One of the most important ways to scaffold a successful transition from high school to college is to teach real-world gate-opening writing genres such as college admission essays. This book describes a writing workshop for ethnically and linguistically diverse high school students where students receive instruction on specific genre features of the college admission essay. The authors present both the theoretical grounding and the concrete strategies teachers crave, including an outline of specific workshop lessons, teaching calendars, and curricular suggestions. This text encourages secondary teachers to think of writing as a vital tool for all students to succeed academically and professionally. Appropriate for courses and teacher professional development, this accessible book reconceptualizes the ways in which writing can best serve marginalized students. Examines research-based curricular and teaching approaches for the secondary school classroom. Provides a writing workshop framework for creating a college admissions essay complete with lesson planning materials, activities, handouts, bibliographic resources, and more. Includes student perspectives and work samples offering insight into the lives and struggles of diverse adolescents. In this important book, Jessica Early and Meredith DeCosta describe a readily replicable set of activities that provides motivated, meaningful opportunities for writing development and helps potential first-generation higher education students gain university admission. From the Foreword by Charles Bazerman, Gevirtz Graduate School of Education, University of California, Santa Barbara. This is a book about opening doors, about demystifying writing tasks that can keep many students on the outside.
