Reckless Part The Reckless Series English Edition:

Arbuckle and Keaton James L. Neibaur, 2015-02-18 From 1917 to 1919 Joseph Schenck produced a series of Comique comedies starring master movie comedian Roscoe Fatty Arbuckle and featuring an apprentice Joseph Frank Buster Keaton. These films were initially deemed significant by modern archivists for representing the first movie appearances of Keaton, widely considered one of the most important figures in motion picture history. But the Comique films also remain the most important of Arbuckle's career because they feature him at the height of his cinematic genius and powers. The 14 short comedies starring Arbuckle and Keaton are incredibly important to the history of cinema and are analyzed in this book. After two chapters of biographical introductions, the rest of the book discusses their collaborative efforts and reveals the way in which the films evolved from Arbuckle's wild slapstick to feature more of the subtlety and cleverness of Keaton. Closing sections discuss what became of Arbuckle and Keaton afterward, commenting significantly on the scandal that undermined Arbuckle's career.

Social Learning and Social Structure Ronald Akers, 2017-07-28 The social learning theory of crime integrates Edwin H. Sutherland's differential association theory with behavioral learning theory. It is a widely accepted and applied approach to criminal and deviant behavior. However, it is also widely misinterpreted, misstated, and misapplied. This is the first single volume in depth, authoritative discussion of the background, concepts, development, modifications, and empirical tests of social learning theory. Akers begins with a personal account of Sutherland's involvement in criminology and the origins of his influential perspective. He then traces the intellectual history of Sutherland's theory as well as social learning theory, providing a comprehensive explanation of how each theory approaches illegal behavior. Akers reviews research on various correlates and predictors of crime and delinquency that may be used as operational measures of differential association, reinforcement, and other social learning concepts. Akers proposes a new integrated theory of social learning and social structure that links group differences in crime to individual conduct. He concludes with a cogent discussion of the implications of social learning theory for criminology and public policy. Now available in paperback with a new introduction by the author, this volume will be invaluable to professionals and for use in courses in criminology and deviance.
