Railway Accident and other stories Edward Upward,2014-07-11 A legendary figure among the Auden generation of young writers in the 1930s Edward Upward continued writing into his late nineties This selection of his best short stories spans a literary career of almost eight decades and was published to celebrate his centenary in 2003 Beginning in 1928 with the fantastical world of Mortmere in *The Railway Accident* the stories continue through the era of political engagement in the Thirties to the reflective and poignant studies of old age that have underpinned his revival in the past decade Together they represent a lifetime of achievement in modern literature **The Railway that Helped Win the Crimean War** Anthony Dawson,2022-09-15 Week after week the guns of the British expeditionary force battered away at the defences of Sevastopol eight miles away from Balaklava the port through which all besiegers supplies arrived As autumn turned to winter rain and

frost turned the track from Balaklava into a muddy quagmire and soon it became virtually impassable. Horses were dying daily in their endeavours to pull carts up the hills to the siege lines and with few supplies reaching the front the troops suffered terribly from malnutrition and frostbite. Unless a solution could be found the entire operation was doomed to humiliating disastrous failure. When news of the terrible plight of the troops reached the UK a leading railway contractor and his partners undertook to build a railway at cost from Balaklava to the front line and promised that they could construct it in just three weeks after they arrived in the Crimea. Though it took almost seven weeks to complete the railway in that time a double track which rose 500 feet from the port and travelled for seven miles to the siege lines had been laid. With food, clothing and ammunition at last able to reach the front the British along with their French allies were able to capture Sevastopol and bring the Crimean War to an end. In this comprehensive and detailed account of the construction and use of what became known as the Grand Crimean Central Railway the author describes the astonishing achievement in building the first railway ever employed in warfare and the first to be used for casualty evacuation thousands of miles from the UK.

THE PENGUIN BOOK OF INDIAN RAILWAY STORIES Ruskin Bond, 2000-10-14. The stories in this collection capture the essence of the Indian Railways from the small town station at the time of the Raj to the present day big city station bursting at the seams. The teeming and varied life of the Indian Railway station and its environs have fascinated writers from Jules Verne in the 1870s to more recently Satyajit Ray, R K Laxman and more modern writers. In this anthology one of India's best known writers makes a selection of the greatest railway stories the subcontinent has produced. Jules Verne, Rudyard Kipling, Flora Annie Steel, Hon J W Best, Jim Corbett, Khushwant Singh, Ruskin Bond, Manoj Das, Intizar Husain, Satyajit Ray, Bill Aitkin, R K Laxman, Victor Banerjee, Manojit Mitra. *British railway enthusiasm* Ian Carter, 2017-10-03. Now available in paperback this is the first academic book to study railway enthusiasts in Britain. Far from a trivial topic the post war train spotting craze swept most boys and some girls into a passion for railways and for many ignited a lifetime's interest. British railway enthusiasm traces this post war cohort and those which followed as they invigorated different sectors in the world of railway enthusiasm: train spotting, railway modelling, collecting railway relics and then in response to the demise of main line steam traction Britain's now huge preserved railway industry. Today this industry finds itself riven by tensions between preserving a loved past which ever fewer people can remember and earning money from tourist visitors. The widespread and enduring significance of railway enthusiasm will ensure that this groundbreaking text remains a key work in transport studies and will appeal to enthusiasts as much as to students and scholars of transport and cultural history.
