[A Social History of Administrative Science in Italy](#) Andrea Rapini,2023-01-01 This book traces the origins life and death of Administrative Science in Italy as an academic discipline between the nineteenth and twentieth centuries It does so by combining the study of ideas institutional history intellectual history and social history The Faculty of Law first introduced Administrative Science in 1875 with the aim of providing the elite with the necessary tools to

distribute wealth more equally to take care of the population and thus to make the young Italian State more legitimate in the eyes of the emerging masses Law and social sciences were merged with the aim of increasing reforms including that of creating a State of Happiness for all citizens Throughout its 70 year existence Administrative Science was deprived of its contents and scientific independence and academically overshadowed by Administrative and Public law Finally although the liberal elites discarded the reformer project of Administrative Science even before Fascism turned everything upside down most of the original traits of this knowledge were absorbed into Fascist corporate and totalitarian structures *Readers' Guide to Periodical Literature* ,1910 **The National Advocate** ,1907
