

Dear Parents,

It is my pleasure to welcome you and your child to kindergarten! This will be a wonderful year full of learning and fun, not to mention, an incredible year of change. You will be amazed as you watch your child bloom as a friend, reader, writer, mathematician, scientist, thinker, and so much more!

I look forward to working with you and your child this year. I am excited by the anticipation of the countless milestones we will reach as a class and those your child will reach as an individual.

I look forward to meeting you during our Kindergarten Orientation on **Tuesday, August 12<sup>th</sup> at 6:30pm**. This will be a night for parents. You may also bring your child's supplies and supply fee on this evening. That will reduce the stress of Open House or the first day of school. **Open House will be on Tuesday, August 18<sup>th</sup> from 5:00-7:00pm**. This will be a night for parents and children. Your child will be able to see their classroom and meet me.

I bet your child is exceptional! Would you consider telling me about your wonderful child? Brag! Brag! Brag! PLEASE!!! I can't wait to hear about my new friends. I love getting emails, and I generally check them on a daily basis. [dwillis@dutchmen.us](mailto:dwillis@dutchmen.us)

Thank you in advance for trusting me with your most precious possession. I promise to treat your child the way I would want my child to be treated. I am not perfect, but I will do my best to make this an amazing year!

*The Oxford Handbook of Reading* Alexander Pollatsek, Rebecca Treiman, 2015-07-21 Writing is one of humankind's greatest inventions and modern societies could not function if their citizens could not read and write How do skilled readers pick up meaning from markings on a page so quickly and how do children learn to do so The chapters in the Oxford Handbook of Reading synthesize research on these topics from fields ranging from vision science to cognitive psychology and education focusing on how studies using a cognitive approach can shed light on how the reading process works To set the stage the opening chapters present information about writing systems and methods of studying reading including those that examine speeded responses to individual words as well as those that use eye movement technology to determine how sentences and short passages of text are processed The following section discusses the identification of single words by skilled readers as well as insights from studies of adults with reading disabilities due to brain damage Another section considers how skilled readers read a text silently addressing such issues as the role of sound in silent reading and how readers' eyes move through texts Detailed quantitative models of the reading process are proposed throughout The final sections deal with how children learn to read and spell and how they should be taught to do so These chapters review research with learners of different languages and those who speak different dialects of a language discuss children who develop typically as well as those who exhibit specific disabilities in reading and address questions about how
