

## Samples of Opening Paragraphs for a Short Philosophy Paper

*For illustrative purposes only*

In what follows, you'll read 3 samples of opening paragraphs. The last example is a whole paper (on a topic totally different from ours), and it is a bit more sophisticated than what you are required to do. However, take a look at the structure and language: how concise and exact everything is. All of these samples are grade A material (the very last one is an A+). They all follow the basic structure I talked about.

The difference between an introduction like the one I was recommending not to write and this type of opening paragraph should be clear: If you want to call the opening paragraph an introduction, that's fine with me: all I want to stress is that you need to **get right to the point, stating the thesis of your essay, the side you'll be taking** (agree or disagree with the thesis) **and the reasons why you're taking that side**. After each sample below, I'll provide a short commentary of why I think that's a good opening / paper.

### • Sample 1

#### **Socrates on the Moral Authority of the State**

In the *Crito*, Socrates makes some surprisingly strong claims about the moral authority of the state, which might even seem to be inconsistent both with another fundamental claim he makes in the *Crito* and with certain claims he makes in the *Apology*. I shall argue that although these claims seem to be in some tension with each other, the crucial claims about the authority of the state in the *Crito* can plausibly be interpreted in such a way as to remove any real inconsistency with the other claims.

**Commentary:** The opening paragraph is very concise, but very nicely written. The problem is plainly stated, and then I explain clearly what I'm going to do in the paper--all in just two sentences. There's no rambling introduction with sentences starting with "Since the beginning of time, mankind has pondered the mysteries of etc."

The style is straightforward, striving for clarity rather than literary flair. Jargon is avoided as far as possible.

However, the sentences are a bit too long for my taste. Try to avoid wordy sentences.

### • Sample 2

#### **Changing the Laws of Physics**

Peter Van Inwagen ambitiously sets out to prove once and for all that we must choose between free will and determinism, because both cannot hold for this world. In "Determinism", he defines both determinism and free will, and gives a deductive argument for how these two ways of the world cannot coexist. His argument nearly succeeds, but for one error. In this paper, I will show how his conception of determinism fails simply because the "laws of physics" he envisions are problematic. In order for his "laws of physics" to work in the argument, they must be independent rules for understanding our world, but Van Inwagen does not give sufficient reason to interpret them as such.

**Writing Philosophy Papers** Zachary Seech, 1993 **WRITING PAPERS IN PHILOSOPHY** is an inexpensive supplement covering the various kinds of writing assignments for which many of today's students are ill prepared. Teachers can rest assured that students now have the resources to learn the various skills e.g. organization, documentation, how to write a thesis defense or comparison and contrast paper. This book will save time and frustration for everyone concerned. **CBSE Class 12 - Design - 10 Sample Papers** Mocktime Publication, CBSE Sample Papers Class 12 Design *Writing Philosophy Papers* Zachary Seech, Andrew Kania, 2024-08-28. This sixth edition of *Writing Philosophy Papers* updates and expands one of the most popular guides to philosophical writing assignments for undergraduate students. Written in a clear straightforward style, the book covers everything from time management to the difference between i.e. and e.g. The heart of the book is devoted to how to write a thesis defense paper, with chapters on the structure of a strong paper, the process of writing and revising, matters of style and usage, and scholarly citation. This advice is illustrated with concrete examples throughout, including a complete thesis defense paper written and formatted according to the book's recommendations. The book also covers how to take good notes from various kinds of philosophical sources, how to write other commonly assigned kinds of papers, and how to study for and take a philosophy exam. A chapter on doing philosophical research contains practical advice on how to discover and access the most helpful sources for a philosophical research paper or annotated bibliography. Because virtually every philosophy assignment requires a basic grasp of arguments, the book ends with a chapter introducing some basic concepts and skills for reasoning well. The heart of the sixth edition has been revised and restructured to lead students even more clearly through the process of drafting, revising, and formatting a thesis defense paper. This new edition also includes an updated, completely revised and expanded chapter on citing sources, giving equal consideration to print and online sources; an updated, completely revised and expanded chapter on doing philosophical research, focused on how to find the most helpful sources for completing a philosophical research paper or annotated bibliography; updated, revised and greatly expanded advice on writing style and usage; a completely revised and expanded treatment of good reasoning, with a new discussion of inductive and abductive reasoning; and new advice on how to take good notes and how to study for and take philosophy exams.
