s West different shades of the long and arduous transatlantic dialogue starting with Christopher Columbus's accidental discovery of America to the collapse of Soviet Union have been reasonably accounted for. The second chapter traces back this evolutionary journey in simple easily understandable way. The book has been a fifteen year story of phenomenal change which redefined the very nature of the Western Alliance after the collapse of Soviet Union. Changes in the geopolitical map of Europe emergence of European Union re orientation of NATO and the mutual play between the United States and Europe all throughout the decade of 1990s have been woven into the narrative of this book with the aim to understand how the West if at all has changed. Three major events of post Cold War history the Balkan Crisis the 9 11 and Iraq War 2003 had played major stimulus in re understanding the West. Detailed chronological accounts of these events have been presented before the reader. What are the rationale motivations and implications of EU and NATO's enlargements to the East and how has the enlargement impacted the Alliance. The epilogue reflects upon what has changed and what continues in today's West across different historical phases. How have the schemes of European security in post cold war era been coexisting with the changing face of NATO is yet another theme this book seeks to address.

Indigenist Critical Realism Gracelyn Smallwood, 2015-05-15. Indigenist Critical Realism Human Rights and First Australians Wellbeing consists of a defence of what is popularly known as the Human Rights Agenda in Indigenous Affairs in Australia. It begins with a consideration of the non well being of Indigenous Australians then unfolding a personal narrative of the author Dr Gracelyn Smallwood's family. This narrative is designed not only to position the author in the book but also in its typicality to represent what has happened to so many Indigenous families in Australia. The book then moves to a critical engagement with dominant intellectual positions such as those advanced by commentators such as Noel Pearson Peter Sutton Gary Johns and Keith Windschuttle. The author argues that intellectuals such as these have to a great extent colonised what passes for common sense in mainstream Australia. This common sense straddles the domains of history health and education and Dr Smallwood has chosen to follow her adversaries into all of these areas. This critique is anchored by a number of key philosophical concepts developed by the Critical Realist philosopher Roy Bhaskar. The book advances and analyses a number of case studies some well known even notorious such as the Hindmarsh Island Affair South Australia and the Northern Territory Intervention others like that of the author's late nephew Lyji Vaggs Qld and Aboriginal Elder May Dunne Qld much less so. Representing one of the first attempts to engage at a critical and intellectual level in this debate by an Indigenous activist this book is essential reading for students and scholars interested in Critical Realism and colonialism.

The Unaccountable & Ungovernable Corporation Frank Clarke,Graeme Dean,Matthew Egan,2014-03-21 The Corporation is a major vehicle of business activity worldwide It incurs social costs and generates benefits that continually change hence whether it still provides a net benefit to society is contestable Evidence based observations of the last decade of corporate sagas and the role of accounting and auditing suggests a serious rethink is needed about how commerce is pursued and in particular whether the current corporate form has passed its use by date The authors of this new book including internationally renowned accounting scholars argue that the two major governance tools of accounting and auditing require major makeovers Beginning by analyzing the global sweep of deregulation that corporations experienced since 2000 the authors go on to discuss the various scandals and crises that characterized the subsequent period culminating in yet more calls for further deregulation Having thoroughly assessed the status quo they provide a series of urgent recommendations for reforms designed to bring the corporation back to the real world and restore its purpose This book will be of great interest to students and academics across accounting business law and finance especially more advanced students at undergraduate and postgraduate level **The history of marriage equality in Ireland** Sonja

Self-Determination and Secession in International Law Christian Walter, Antje von Ungern-Sternberg, Kavus Abushov, 2014-06-05 Peoples and minorities in many parts of the world assert a right to self determination autonomy and even secession from a state which naturally conflicts with that state s sovereignty and territorial integrity The right of a people to self determination and secession has existed as a concept within international law since the American Declaration of Independence in 1776 but the exact definition of these concepts and the conditions required for their application remain unclear The Advisory Opinion of the International Court of Justice concerning the Declaration of Independency of Kosovo 2010 which held that the Kosovo declaration of independence was not in violation of international law has only led to further questions This book takes four conflicts in the post Soviet Commonwealth of Independent States CIS as a starting point for examining the current state of the law of self determination and secession Four entities Transnistria Moldova South Ossetia Abkhazia both Georgia and Nagorno Karabakh Azerbaijan claim to be entitled not only to self determination but also to secession from their mother state For this entitlement they rely on historic affiliations and on charges of discrimination and massive human rights violations committed by their mother state This book sets out its analysis of these critical issue in three parts providing a detailed understanding of the principles of international law on which they rely The first part sets out the contours and meaning of self determination and secession including an overall assessment of secession within the Commonwealth of Independent States The second section provides case studies investigating the events in Transnistria
