But after so many adrenaline-soaked years of risking his life, Bourne finds himself chafing under the quiet life of a linguistics professor. Aware of his frustrations, his academic mentor Professor Specter asks for help investigating the murder of a former student by a previously unknown Muslim extremist sect. The young man died carrying information about the group's terrorist activities, including an immediate plan to attack the United States. The organization, the Black Legion, and its lethal plot have also popped up on the radar of Central Intelligence, where new director Veronica Hart is struggling to assert her authority. Sensing an opportunity to take control of CI by showing Hart's incompetence, National Security Agency operatives plan to accomplish what CI never could: hunt down and kill Bourne. **Robert Ludlum's The Bourne**
