applications referred to a Programmed Transfer Article Devol's patent was issued in 1961 as US Patent 2 988 237 and this formed the basis of the Unimate robot which first saw the light of day in 1960 The first Unimate was sold to Ford Motor Company which used it to tend a die casting machine It is perhaps ironic that the first robot was used by a company which refused to recognise the machine as a robot preferring instead to call it a Universal Transfer Device **Embedded Robotics** Thomas Bräunl,2022-03-23 This book presents a unique examination of mobile robots and embedded systems from introductory to intermediate level It is structured in three parts dealing with Embedded Systems hardware and software design actuators sensors PID control multitasking Mobile Robot Design driving balancing walking and flying robots and Mobile Robot Applications mapping robot soccer genetic algorithms neural networks behavior based systems and simulation The book is written as a text for courses in computer science computer engineering IT electronic engineering and mechatronics as well as a guide for robot hobbyists and researchers **Loving the Machine** Timothy N. Hornyak,2006-05-25 While the US sponsors robot on robot destruction contests Japan's feature tasks that mimic non violent human activities Why is this What accounts for Japan's unique relationship with robots as potential colleagues in life rather than potential adversaries This book answers this query by looking at Japan's historical connections with robots Japan stands out for its long love affair with robots a phenomenon that is creating what will likely be the world's first mass robot culture While US companies have created robot vacuum cleaners and war machines Japan has *Robots Revisited* ,1981 The Specifications and Applications of Industrial Robots in Japan ,1994 The National Guide to Educational Credit for Training Programs American Council on Education,2005 Highlights over 6 000 educational programs offered by business labor unions schools training suppliers professional and voluntary associations and government agencies The Specifications and Applications of Industrial Robots in Japan 1984 Nihon Sangyōyō Robotto Kōgyōkai,1984 **Metal Construction** ,1975
