Thomas Baudinette, 2023-10-05 Over the past several years the Thai popular culture landscape has radically transformed due to the emergence of Boys Love BL soap operas which celebrate the love between handsome young men Boys Love Media in Thailand Celebrity Fans and Transnational Asian Queer Popular Culture is the first book length study of this increasingly

significant transnational pop culture phenomenon Drawing upon six years of ethnographic research the book reveals BL s impacts on depictions of same sex desire in Thai media culture and the resultant mainstreaming of queer romance through new forms of celebrity and participatory fandom The author explores how the rise of BL has transformed contemporary Thai consumer culture leading to heterosexual female fans of male celebrities who perform homoeroticism becoming the main audience to whom Thai pop culture is geared Through the case study of BL this book thus also investigates how Thai media is responding to broader regional trends across Asia where the economic potentials of female and queer fans are becoming increasingly important Baudinette ultimately argues that the center of queer cultural production in Asia has shifted from Japan to Thailand investigating both the growing international fandom of Thailand s BL series as well as the influence of international investment into the development of these media The book particularly focuses on specific case studies of the fandom for Thai BL celebrity couples in Thailand China the Philippines and Japan to explore how BL series have transformed each of these national contexts queer consumer cultures

Love Lives Carol Dyhouse,2021-02-11 The story of how women s lives loves and dreams have been re shaped since 1950 the year of Walt Disney s Cinderella and a time when teenage girls dreamed of marriage Mr Right and happy endings Cinderella stories captured the imagination of girls in the 1950s when dreams of meeting the right man could seem like a happy ending a solution to life s problems But over the next fifty years women s lives were transformed not by the magic wand of a fairy godmother nor by marrying princes but by education work birth control and feminism However while widening opportunities for women were seen as progress feminists were regularly caricatured as man haters cast in the role of ugly sisters witches or wicked fairies in the fairy tale This book is about the reshaping of women s lives loves and dreams since 1950 the year in which Walt Disney s film Cinderella gave expression to popular ideas of romance and at a time when marriage was a major determinant of female life chances and teenage girls dreamed of Mr Right and happy endings It ends with the runaway success of Disney s Frozen in 2013 a film with relevance to very different times Along the way it illuminates how women s expectations and emotional landscapes have shifted asking bold questions about how women s lives have been transformed since 1950 How have women s changing life experiences been mirrored in new expectations about marriage intimacy and family life How have new forms of independence through education and work and greater control over childbearing altered women s life ambitions And were feminists right to believe that sexual equality would improve relationships between men and women

A Metaphysics of Love George Pattison,2021 As the third part of a philosophy of Christian life A Metaphysics of Love builds on a view of Christian life as shaped by the dynamic of call response and promise It argues that love is the ultimate content of this dynamic and considers how far this claim extends Taking its bearings from Dante s vision of divine love as the power that moves the sun and other stars this study explores the requirement that love is both human and cosmic uniting being and beings Cognizant of much recent philosophy s desire to overcome or move beyond a metaphysics of being it examines some of the formal structures that make love possible including language time social being forgiveness and ultimacy Following on from the earlier volumes extensive use is made of the idea of the poetic as the eminent mode of Christian witness contextualized within the prose of everyday life Heidegger provides fundamental philosophical orientation whilst key features of love are brought to the fore through dialogue with Kierkegaard Dante and Dostoevsky are frequent points of reference in addition to a range of literary and religious sources including the Scottish poet Edwin Muir Leading scholar George Pattison concludes that the phenomenon of love requires us to articulate a metaphysics that involves both being and nothingness thereby taking a critical position vis vis both classical theism and existential atheism
