exercise introduced as the first step in a larger philosophical program Gill contends that the dialogues leading up to the missing Philosopher though they reach some substantive conclusions are philosophical exercises of various sorts designed to train students in dialectic the philosopher's method and that a second version of the Parmenides exercise closely patterned on it spans parts of the Theaetetus and Sophist and brings the philosopher into view This is the exercise about being the subject matter studied by Plato's philosopher Plato hides the pieces of the puzzle and its solution in plain sight forcing his students and modern readers to dig out the pieces and reconstruct the project Gill reveals how in finding the philosopher through the exercise the student becomes a philosopher by mastering his methods She shows that the target of Plato's exercise is internally related to its pedagogical purpose
