Nova Genesis T0grand Canyon:

Genesis 1 to 11: The Beginning of Everything Harold Lerch, 2021-12-23 The first eleven chapters of the first book of the Bible are the basis for the rest of the text It covers the creation of time space energy and matter The first people commit the first sin Original Sin and is why we need a Savior Man is corrupt God destroys all terrestrial life and the creation is reborn Man repeatedly disobeys God but eventually fills the earth All else is built upon these facts **Will I Go to Heaven?** Harold Lerch, 2020-12-03 This book proclaims that the God of the Bible is the true God and that we are all his children He has prepared heaven as a place for his children to spend eternity The text explains how you can be assured that you can enter Heaven Evolution: Fact or Faith? Harold Lerch P.E. Ret'd, 2020-05-13 The theory of evolution has become in a sense a scientific religion Almost all scientists have accepted it and many are prepared to bend their observations to fit in with it

A Worldview Approach to Science and Scripture Carol Hill, 2019-11-19 Geologist Carol Hill examines how numerous apparent conflicts between Scripture and science can be resolved by understanding the ancient worldview of the scriptural authors and how it differs from our modern scientific worldview This framework opens the door to clearing up longstanding questions such as Are the Genesis patriarchs ages real numbers Are the days of creation actual 24 hour days Where was the Garden of Eden located Was Noah's flood global or local Were Adam and Eve real people Is evolution a belief or a fact With photographs and diagrams throughout Hill explores the meaning of the relevant biblical passages the scientific data and how the worldview approach addresses seeming contradictions Anyone who has wrestled with these questions will find A Worldview Approach to Science and Scripture to be an invaluable resource for understanding the interplay between faith and the world Carol Hill takes both Scripture and science seriously affirming the inspiration of the Bible and the evidence for biological evolution Deborah Haarsma President of BioLogos This is one of the best one volume works on the creation evolution dialogue in print Kenneth Keathley Southeastern Baptist Theological Seminary Carol Hill's worldview approach brings the reader face to face with archeological biblical and scientific data that enable one to gain a new appreciation for what the Bible is trying to teach This approach is a very helpful tool James K Hoffmeier Trinity Evangelical Divinity School

Do Pets Go to Heaven? Harold Lerch, 2021-10-07 This book proclaims that the Bible is the true Word of God He is the creator and we are his children He has prepared Heaven for his children to spend eternity The text explains assurance that you can enter Heaven What about our pets will they go to Heaven too **The Conflict of the Ages Teacher Edition IV Ice Age Civilizations** Michael J. Findley, Mary C. Findley, Teacher Edition with Review Questions Vocabulary projects and answer keys Set the record straight on the Ice Age Stone Age Bronze Age Iron Age The rise of civilizations and ancient technology occurred rapidly Find out the real reasons people lived in caves moved frequently or collected in a single location The Genesis Flood Revisited Andrew Snelling, 2022-10-25 Modeled after the 1961 ground breaking book The Genesis Flood by Drs Whitcomb and Morris this detailed work builds on that classic volume with new insights from decades of work

by the author Dr Andrew Snelling and numerous colleagues This recent revolution in geology and the explosion in geological research have established an even firmer basis for understanding the biblical Flood with a God honoring foundation the absolute authority and inerrancy of God s Word Examine details of the Creation Week as it builds a solid scriptural case for the Flood s catastrophic nature and global extent Find decisive answers to many questions about the Flood and Noah s Ark its construction and the animals taken onboard Delve deeply into astonishing geological details that unfold from the early chapters of Genesis including the Creation Week and the pre Flood world Explore detailed evidence and a concise informative 30 page color section with diagrams maps and more Dr Snelling jettisons the faulty evolutionary uniformitarian assumptions used by most geologists and instead interprets compelling new geological and observed field data within the biblical framework for the earth s history He also demonstrates that fossils were catastrophically buried in sedimentary layers being deposited rapidly on a global scale on the continental plates derived from the violent rifting apart of the original supercontinent His work demolishes radiometric dating the icon of the millions of years dogma and builds a thoroughly powerful case for a young earth that explains many geological features such as varves evaporites coal oil chalk granites and more that biblical skeptics sadly have used to scoff at God s Word Discover the powerful truth behind the earth s most enduring mysteries

Did God Make Me? Harold Lerch, 2022-10-12 Children are taught the theory of evolution at an early age by most public schools around the world They often are prevented from learning alternatives This book supports the view that the Bible is God s Word and gives an account of real historical events including Special Creation by our loving God It is geared for children and teenagers It is written on a seventh grade level so the book should be read to younger children by an adult Supporting scriptures and illustrations are included
