November 2012 Ett Memorandum:

The Report: Mongolia 2014 Oxford Business Group, 2014-05-23 Since the country's transition from communism two decades ago the Mongolian economy has experienced rapid liberalisation. Sectors including ICT and insurance are expanding quickly and while the mining sector has been responsible for making Mongolia a rising star in the global economy there is great potential for further growth in all economic sectors. Politically stable and rich with natural resources Mongolia has emerged as a bellwether for investor confidence in recent years. The 2013 commercialisation of the Oyu Tolgoi gold and copper mine is helping to diversify Mongolia's mineral exports away from coal while the government is working to improve the investment environment by adopting the new Investment Law among other measures. Challenges do exist however from the long harsh winters that slow construction to the difficulty of connecting the sparsely populated nation through ICT and transport systems. In response the government has partnered with the private sector on a number of fronts in order to promote economic diversification and competitiveness.

Olof Palme, Sweden, and the Vietnam War Lubna Z. Qureshi, 2023-06-16 In 1972 Swedish Prime Minister Olof Palme's fierce condemnation of the Christmas Bombings of the North Vietnamese cities of Hanoi and Haiphong led to a breakdown in diplomatic relations at the highest level between Sweden and the United States. The author argues that Sweden's official position of neutrality allowed its Prime Minister greater independence of action on the international stage. Palme opposed the American military intervention in Southeast Asia for its violation of Vietnamese self-determination. Superpower aggression against one small country threatened all others including Palme's own. At the same time the diplomatic freeze did not substantially damage Swedish-American relations. In spite of the tension with the Nixon White House Stockholm and its embassy in Washington maintained excellent relations with Congress with many ordinary Americans and even with Nixon's own State Department.

Architecture and Retrenchment Helena Mattsson, 2023-01-26 Shortlisted for the Architects Sweden Critics Award 2023 Scholars in architectural and urban history have over the last decade been trying to come to terms with architecture's neoliberal turn and its various impacts from municipal policy to the artistic imagination However most scholarship has focussed on generalizations with very little work to date focussing on specific cases *Architecture and Retrenchment* brings one such case to the fore investigating the relation between architecture and the Swedish Model of the welfare state It tracks the response of architecture to the gradual retrenchment and ultimate dismantling of the Swedish welfare state which was in its heyday world famous for its integration of architecture and the built environment into the welfare system Ultimately neoliberal economics prevailed yet this book reveals how new architectural strategies and techniques were developed in order to protect the agency of architecture in the newly reorganised society of the 1980s and 1990s Through eight in depth case studies the book situates the often abstract generalised discourse of neoliberalism and privatisation in specific architectural sites and provides an original interpretation of how architecture space aesthetics and politics converged at the end of the twentieth century
