Evolution, Cognition, and Performance Bruce McConachie, 2015-12-15 Culture and cognition work together dynamically every time a spectator interprets meaning during a performance In this study Bruce McConachie examines the biocultural basis of all performance from its origins and the cognitive processes that facilitate it to what keeps us coming back for more To effect this major reorientation McConachie works within the scientific paradigm of enaction which explains all human activities including performances as the interactions of mental bodily and ecological networks He goes on to use our biocultural proclivity for altruism as revealed in performance to explore our species gradual ethical progress on such matters as the changing norms of religious sacrifice slavery and LGBT rights Along the way the book engages with a wide range of performances including Richard Pryor's stand up the film Titanic aerialist performances American football and the

stage and film versions of *A Streetcar Named Desire* *Performance Constellations* Marcela A. Fuentes, 2019-10-21

Performance Constellations maps transnational protest movements and the dynamics of networked expressive behavior in the streets and online as people struggle to be heard and effect long term social justice Its case studies explore collective political action in Latin America including the Zapatistas in the mid 90s protests during the 2001 Argentine economic crisis the 2011 Chilean student movement the 2014 2015 mobilizations for the disappeared Ayotzinapa students and the 2018 transnational reproductive rights movement The book analyzes uses of space time media communication and corporeality in protests such as virtual sit ins flash mobs scarfazos and hashtag campaigns arguing that these protests not only challenge hegemonic power but are also socially transformative While other studies have focused either on digital activism or on street protests *Performance Constellations* shows that they are in fact integrally entwined Zooming in on protest movements and art activism in Mexico Argentina and Chile and putting contemporary insurgent actions in dialogue with their historical precedents the book demonstrates how even in moments of extreme duress social actors in Latin America have taken up public and virtual space to intervene politically and to contest dominant powers **Church Music Through the Lens of Performance** Marcell Silva Steuernagel, 2021-03-14 This book is an investigation into church music through the lens of performance theory both as a discipline and as a theoretical framework Scholars who address religious music making in general and Christian church music in particular use performance in a variety of ways creating confusion around the term A systematized performance vocabulary for the study of church music can support interdisciplinary investigations of Christian congregational music making in today s complex interconnected world From the perspective of performance theory all those involved in church musicking are performing be it from platform or pew The book employs a hybrid methodology that combines ethnographic research and theory from ritual studies ethnomusicology theology and church music scholarship to establish performance studies as a possible next step in church music studies It demonstrates the feasibility of studying church music as performance by analyzing ethnographic case studies using a developmental framework based on the concepts of ritual embodiment and play change This book offers a fresh perspective on Christian congregational music making It will therefore be a key reference work for scholars working in Congregational Music Studies Ethnomusicology Ritual Studies and Performance Studies as well as practitioners interested in examining their own church music practices
