goes a step beyond mere retrieval practice offering a fresh approach to test enhanced learning both pretesting and post testing supported by real classroom based routines that have been tried and tested by both Primary and Secondary teachers across a range of subjects Exploring the research behind test enhanced learning it reveals that both pretesting and post testing retrieval practice offers improved memorisation and secures long term learning Suitable for all teachers in all settings **Resources in Education** ,1998-04 *Imagination in Educational Theory and Practice* Robert

Political Text and the Individuals with Disabilities Education Act of 1973 disclosed certain contributory facets to teacher disillusionment in an inclusive high school environment A diminishing sense of professional self efficacy self empowerment and optimism stemmed primarily from the political machinations of a hidden curriculum and a misapplication of an inclusive classroom practice The process used to arrive at these conclusions was heuristic research wherein outward perceptions and realities assumed meaning vis a vis inward reflection and introspection disclosing an unequivocal new awareness illumination and enlightenment Such personal enrichment however arrived only after a journey of self unfolded through the three phases of heuristic research Immersion Acquisition and Realization First and foremost this was a human study that examined specific elements contributing to teacher disillusionment During Immersion disquieting professional life experiences formed the preliminary data through which and from which was extrapolated an essence or meaning that ultimately assumed form through autobiographical narrative The second phase Acquisition included input from a variety of sources ranging from texts literature and discourses to federal legislation and law review to human subjects studies What was acquired then scrutinized was new knowledge relative to disillusionment in the inclusive classroom especially with regard to curriculum as political text Finally the Realization Phase aggregated and synthesized the components disclosed in Immersion and Acquisition which led to a dynamic coming together of seemingly disparate elements ultimately affirming a sense of professionalism and validating search of self
