Invisible Labor Marion Crain,Winifred Poster,Miriam Cherry,2016-06-28

Demographic and technological trends have yielded new forms of work that are increasingly more precarious globalized and brand centered Some of these shifts have led to a marked decrease in the visibility of work or workers This edited collection examines situations in which technology and employment practices hide labor within the formal paid labor market with implications for workplace activism social policy and law In some cases technological platforms space and temporality hide

workers and sometimes obscure their tasks as well In other situations workers may be highly visible indeed the employer may rely upon the workers aesthetics to market the branded product but their aesthetic labor is not seen as work In still other cases the work occurs within a social interaction and appears as leisure a voluntary or chosen activity rather than as work Alternatively the workers themselves may be conceptualized as consumers rather than as workers Crossing the occupational hierarchy and spectrum from high to low waged work from professional to manual labor and from production to service labor the authors argue for a broader understanding of labor in the contemporary era This book adopts an interdisciplinary approach that integrates perspectives from law sociology and industrial labor relations Provided by publisher [Investment Guides: Lithuania 1998](#) OECD,1998-10-06 This Investment Guide for Lithuania identifies those areas of economic activity which present opportunities for foreign investors provides the investor with comprehensive information relating to the political economic financial and legal framework and assesses the regulatory environment

outsourcing industry In the Indian outsourcing industry employees are expected to be dead ringers for the more expensive American workers they have replaced complete with Westernized names accents habits and lifestyles that are organized around a foreign culture in a distant time zone *Dead Ringers* chronicles the rise of a workforce for whom mimicry is a job requirement and a passion In the process the book deftly explores the complications of hybrid lives and presents a vivid portrait of a workplace where globalization carries as many downsides as advantages Shehzad Nadeem writes that the relatively high wages in the outsourcing sector have empowered a class of cultural emulators These young Indians indulge in

American style shopping binges at glittering malls party at upscale nightclubs and arrange romantic trysts at exurban cafés. But while the high tech outsourcing industry is a matter of considerable pride for India global corporations view the industry as a low cost often low skill sector. Workers use the digital tools of the information economy not to complete technologically innovative tasks but to perform grunt work and rote customer service. Long hours and the graveyard shift lead to health problems and social estrangement. Surveillance is tight management is overweening and workers are caught in a cycle of hope and disappointment. Through lively ethnographic detail and subtle analysis of interviews with workers managers and employers Nadeem demonstrates the culturally transformative power of globalization and its effects on the lives of the individuals at its edges.
