Uzbekistan's foreign policy from 1991 to 2016 starting from independence right up to the death of its first president Islam Karimov is one of the more distinctive approaches to international politics since the end of the Cold War. This distinctiveness rests on the republic's gradual struggle for self-reliance upon becoming independent. Authorities in Uzbekistan, especially its President, were sceptics of the norms that came to prevail across regional and broader international politics. This book addresses the making of Uzbekistan's general foreign policy and its corresponding effects outside Central Asia, particularly at the highest level among state officials, heads of state and ministers. It shows how a particular set of promises, slogans and attitudes became the pillars upon which Uzbekistan's international role was shaped, a role which then affected Tashkent's twenty-five year relations with Russia, the United States, Germany and Turkey. The book argues that the Government of Uzbekistan sought to be recognised as a self-reliant power after independence, but that the international norms of the post-Cold War order, coupled with the conflicting aims of the partners with whom it interacted, hindered acknowledgement and contributed to a twenty-year struggle for recognition. Providing a thorough assessment of President Karimov's legacy in the foreign policy domain, this book contributes to the developing field of role theory and recognition in International Relations. It will also be of interest to academics in the fields of Central Asian and Eurasian politics and international relations.

Corporate Conservatives Go to War Charlie Whitham,2020-05-30 World War II presented a unique opportunity for American business to improve its reputation after years of censure for inflicting the Great Depression upon the nation. No employers' organization worked harder or devoted greater resources to reviving business prestige during the war than the National Association of Manufacturers, which spent millions of dollars on promoting the indispensability of private enterprise to the successful mobilization of the American economy in an uncompromising multi-media campaign which spanned the factory floor to the movie theatre. Now, using unpublished primary sources, the full extent of the NAM's wartime mission to raise the stature of American business in the post-war era is revealed. During the war, the NAM erected a vast structure of research on an unprecedented scale, numbering more than one hundred persons dedicated to planning the best solutions for restoring American free enterprise capitalism after the war in a direct challenge to the liberal prescriptions of the reigning administration. These studies were painstakingly assembled and widely distributed and served as a complimentary arm to the better-known pro-business propaganda message of the organization. What emerges is a unique and telling glimpse into the minds of the corporate class of wartime America that reveals the determination of a major employers' organization to exploit the exceptional circumstances of total war to influence both the power brokers in Washington who wrote economic policy and the American public as a whole to embrace a post-war future ruled by private enterprise capitalism. *The Political*

Globalization Robert Went, 2000-08-20 In clear and concise terms Robert Went demythologises globalization He refutes the myth that globalization is an entirely new phenomenon and that it is an unavoidable process While recognising that it poses serious strategic challenges to the Left he argues that these challenges are not insurmountable and that there is hope for advocating real change Went puts globalization into its historical perspective He shows that there is no option of returning to the postwar mode of expansion but that the current trend must be altered If not he warns of greater social inequality levelling of wages worsening of working conditions life threatening ecological deterioration and a pervasive dictatorship of the market To combat this rampant globalization Went challenges the Left to rebuild its own movement and offer up a credible alternative From reviews of the Dutch and German edition Every category of reader will find in Went an author who understands the art of writing very clearly and accessibly for a broad public Het Financieel Dagblad Amsterdam 14 March 1996 The Dutch Financial Times This sober analysis of the globalization phenomenon is very accessible and smoothly written Financieel Economische Tijd Brussels 20 April 1996 Went's greatest merit is that he proves on the one hand that globalization is not storming ahead as fast as many would have us believe and on the other hand he shows that great societal changes are taking place Onze Wereld Amsterdam June 1996 one of the main Dutch Third World solidarity magazines

Media Amnesia Laura Basu, 2018-04-20 From Donald Trump to Brexit and the rise of nationalist populism across Europe what role has the media played in shaping our current political moment Following the news coverage of a decade long crisis that includes the 2008 financial crash and the Great Recession the UK deficit the eurozone crisis austerity and rising inequality we see that coverage is suffering from an acute amnesia about the policies that caused the crisis in the first place Rather than remembering its roots in the dynamics of free market capitalism the media remains devoted to a narrative of swollen public sectors out of control immigration and benefits cheats How has history been so quickly rewritten and what does this mean for attempts to solve the economic problems Going behind the coverage to decode the workings of media power Basu shows that without a rejection of neoliberal capitalism we'll be stuck in an infinite
