New Kid on the Block Alison Mackinnon, 2016-07-18 The reconstruction of higher education in Australia at the end of the 1980s radically reshaped many existing universities However in South Australia Dawkins s educational changes brought into existence an entirely new university the University of South Australia formed by the merging of two former institutions from the advanced education sector the South Australian Institute of Technology and the South Australian College of Advanced Education This volume first traces the unsuccessful path taken by those institutions to form partnerships with the two existing universities in South Australia Having been rejected by Flinders and the University of Adelaide respectively the two former colleges joined forces and began life as a new university in a new system of higher education Lacking research funding and access to higher degree students in its previous life the new university nevertheless had considerable strengths which suited the new system particularly in equity and links with business and the community The story of the University of South Australia is one of the most successful of the Dawkins changes After a shaky start its rapid rise to prominence in South Australia and beyond allows it to be truly seen as a new kid on the block in Australian higher education

Hannibal,B.J. Cooper,S. Kramar,2020-11-18 Heritage stones are building and ornamental stones that have special significance in human culture The papers in this volume discuss a wide variety of such materials including stones from Europe Asia North and

Labour Beyond Cosatu Andries Bezuidenhout, Malehoko Tshoaedi, Christine Bischoff, 2017-07-01

Labour Beyond Cosatu is the fourth volume in the series *Taking Democracy Seriously* a ground breaking textured and nuanced study on workers and democracy which was established in the 1990s The series looks at members of trade unions affiliated to the Congress of South African Trade Unions Cosatu and provides a rich database of trade union members and research conducted over the past twenty years It is one of the very few such resources available to researchers anywhere in the world *Labour Beyond Cosatu* paints a complex picture The 12 chapters of the volume explore various rebellions and conflicts in the trade union sector starting with the National Union of Mineworkers NUM and rivalries between Cosatu affiliates Unpacking the conflicts between state sector and private sector workers contributors look at the impact of generational and educational shifts seen by some commentators as proof that Cosatu is now middle class The book also raises the issue of gender in the unions by usefully locating the controversy around charges levelled at Zwelinzima Vavi in 2013 in the larger context of serious problems in the gender politics within parts of Cosatu Refuting the image of a union federation solidly committed to the ANC *Labour Beyond Cosatu* presents evidence of a sharp decline in support for the ANC within Cosatu and growing scepticism towards the Alliance It shows that attempts to understand the labour movement in South Africa in the future will need to include research of smaller independent unions and social movements The volume's contributors make a major contribution to key debates on labour and democracy providing new material that can potentially shift the discussion in important ways This book will be of great value to students and researchers in Industrial Sociology Political Studies Industrial Psychology and Economics and Management

persistence of its influence in present day South Africa This is particularly so in education where the past continues to play a decisive role in relation to inequality Between Worlds German Missionaries and the Transition from Mission to Bantu Education in South Africa scrutinises the experience of a hitherto unexplored German mission society probing the complexities and paradoxes of social change in education It raises challenging questions about the nature of mission education legacies Linda Chisholm shows that the transition from mission to Bantu Education was far from seamless Instead past and present interpenetrated one another with resistance and compliance cohabiting in a complex new social order At the same time as missionaries complied with the new Bantu Education dictates they sought to secure a role for themselves in the face of demands of local communities for secular state controlled education When the latter was implemented in a perverted form from the mid 1950s one of its tools was textbooks in local languages developed by mission societies as part of a transnational project with African participation Introduced under the guise of expunging European control Bantu Education merely served to reinforce such control The response of local communities was an attempt to domesticate and master the foreign body of the mission so as to create access to a larger world This book focuses on the ensuing struggle fought on many fronts including medium of instruction and textbook content with concomitant sub texts relating to gender roles and sexuality South Africa s educational history is to this day informed by networks of people and ideas crossing geographic and racial boundaries The colonial legacy has inevitably involved cultural mixing and hybridisation with paradoxically parallel pleas for purity Chisholm explores how these ideas found expression in colliding and coalescing worlds one African the other European caught between mission and apartheid education

Convivial Worlds Tina Steiner,2021-07-29 This book discovers everyday forms of conviviality in fiction and life writing from Eastern and Southern Africa It focuses on ordinary moments of recognition of hospitality of humour and kindness in everyday life to illuminate the significance of repertoires of repair in a world broken by

relations of power Through close readings of specific capacities of living with difference the book excavates ideas of world making personhood and the possibilities of alternative social imaginaries from African perspectives It highlights evanescent and more durable attempts at building solidarity across local and translocal settings by focussing on modes of address that invite reciprocity in contexts of injustice which include Apartheid colonialism racism patriarchy and xenophobia Putting current research on conviviality in conversation with the literary texts the book demonstrates how conviviality emerges as an enabling ethical practice as critique and survival strategy and as embodied lived experience The volume will be of great interest to scholars and researchers of Literary and Cultural Studies especially Postcolonial Literature African Studies and Indian Ocean Studies
