**Theorizing Histories of Rhetoric** Michelle Ballif, 2013-02-25 During the decades of the 1980s and 1990s historians of rhetoric composition and communication vociferously theorized historiographical motivations and methodologies for writing histories in their fields After this fertile period of rich contested and impassioned theorization scholars busily undertook the composition of numerous historical works complicating master narratives and recovering silenced voices and rhetorical practices Yet though historians in these fields have gone about the business of writing histories the discussion of theorization has been quiet In this welcome volume fifteen scholars consider once again the theory of historiography asking difficult questions about the purposes and methodologies of writing histories of rhetoric broadly defined and questioning what it means what it should mean what it could mean to write histories of rhetoric composition and communication The topics addressed include the privileging of the literary and the textual over material artifacts as prime sources of evidence in the study of classical rhetoric the use of rhetorical hermeneutics as a methodology for interpreting past practices the investigation of feminist methodologies that do not fit into the dominant modes of feminist historiographical work and the

examination of archives with a queer eye to better construct nondiscriminatory narratives Contributors also explore the value of approaching historiography through the lenses of jazz improvisation and complexity theory and the historiographical method of writing the future in ways that refigure our relationships to time and to ourselves Consistently thoughtful and carefully argued these essays successfully revive the discussion of historiography in rhetoric inspiring fresh avenues of exploration in the field

[A Rhetorics of the Word](#) George Pattison, 2019-11-28 A Rhetorics of the Word is the second volume of a three part philosophy of Christian life It approaches Christian life as expressive of a divine calling or vocation The word Church ekklesia and the role of naming in baptism indicate the fundamental place of calling in Christian life However ideas of vocation are difficult to access in a world shaped by the experience of disenchantment The difficulties of articulating vocation are explored with reference to Weber Heidegger and Kierkegaard These are further connected to a general crisis of language manifesting in the degradation of political discourse Arendt and the impact of new communications technology on human discourse This impact can be seen as reinforcing an occlusion of language in favour of rationality already evidenced in the philosophical tradition and technocratic management New possibilities for thinking vocation are pursued through the biblical prophets with emphasis on Buber's and Rosenzweig's reinterpretation of the call of Moses Saint John and Russian philosophies of language Florensky to Bakhtin Vocation emerges as bound up with the possibility of being name bearers enabling a mutuality of call and response This is then evidenced further in ethics and poetics where Levinas and Hermann Broch The Death of Virgil become major points of reference In conclusion the themes of calling and the name are seen to shape the possibility of love the subject of the final part of the philosophy of Christian life A Metaphysics of Love

**Stalinist Genetics** Dmitri Stanchevici, 2017-03-02 Stalinist Genetics focuses on the rhetoric of T D Lysenko the founder of an agrobiological doctrine Lysenkoism in the Stalinist Soviet Union Using not only scientific but also political and ideological arguments Lysenko achieved an official ban on Soviet Mendelian genetics Though the ban was brief and Lysenkoism as a leading biological doctrine was eventually deposed in favor of Mendelism Lysenkoism remains a paradigmatic example of pernicious political interference in science In this study the critical orientation for reading Lysenko's major speeches is constitutional rhetoric It combines Kenneth Burke's dialectic of constitutions and rhetoric of the subject Painting a nuanced picture of intellectual economic ideological and political life in the Soviet Union of the 1930s and 1940s the book demonstrates how the rhetorics of Lysenkoism and Mendelism interacted with Stalinist culture in the fight for dominating Soviet science The reader will learn how Lysenko's constitutional rhetoric created a space where scientific terms transformed into political and ideological ones and vice versa The book also shows how in a dialectical flip the Lysenkoist rhetoric eventually turned from tool to master Contrary to Lysenko's intentions his language gave his opponents Soviet Mendelians grounds on which to defend their science and criticize Lysenkoism Stanchevici forcefully reasserts the blurriness of the boundaries between science and politics and argues that scientific language reveals more plasticity and adaptability to the political situation than has hitherto been assumed Intended Audience Scholars in rhetoric history and philosophy of science graduate or upper division undergraduate course in the rhetoric of science or technical communication

**Expel the Pretender** Eve Wiederhold,2015-04-01 Political fights are not waged over who is speaking the truth but over whether any given claim seems to be authentic Expel the Pretender Rhetoric Renounced and the Politics of Style examines how rhetorical style influences judgments about how to communicate integrity and good will Eve Wiederhold argues that attitudes about style s significance to judgment are both undertheorized and over determined especially when style is regarded as an embellishment rather than as a constitutive aspect of language use Examining news reports covering controversial speakers including President Bill Clinton Linda Tripp and the Rev Jeremiah Wright she demonstrates how rhetorical style is both belittled and yet remains a focal point for assessing public figures who have been publicly rebuked and discredited Expel the Pretender claims style as a conflicted site of materiality critiquing contemporary rhetorical theories that configure style as a dependable resource for democratic inquiry Wiederhold argues that conceptions of style s significance to judgment must be reframed to understand how we make decisions about who and what to believe
