The Legacy of a Troubled Past Bernard Cros, Mathilde Rogez, Gilles Teulie, 2022-06-07 Since the advent of democracy in 1994 South Africa has been engaged in an unprecedented exercise of national soul searching torn between the need to lay to rest centuries of racial conflict and the desire to come to terms with its traumatic history This book asks whether the country has begun to turn the corner on the legacy of collective hurt To do so it ranges in scope across 350 years of South African history encompassing the struggle against the apartheid regime the downfall of white supremacy the Truth and Reconciliation Commission and the first 25 years of democracy up to more recent movements such as RhodesMustFall or the inquests into the 2012 Marikana massacre that point to the persistence of traumatic memory in contemporary society The authors assembled here set out to analyse the representation of such memory how it has been woven into narratives recorded preserved and questioned and how issues of individual and collective responsibility have been grafted onto it through the visual arts literature political discourse and public action In focusing on memory along with its derived forms of memorialization collective memory nostalgia or post memory our contributors pose a fundamental question is South Africa finally coming to the end of the post apartheid transition period Do the decades of memory work on racial violence and repression examined here hold out hope for the nation to make peace with its past Fees Must Fall Susan

Kumalo,2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution the university *African Political Systems Revisited* Aleksandar Bošković,Günther Schlee,2022-04-08 Reexamining a classical work of social anthropology *African Political Systems* 1940 edited by Fortes and Evans Pritchard this book looks at the colonial and academic context from which the work arose as well as its reception and its subject matter and looks at how the work can help with analysis of current politics in Africa This book critically reflects upon the history of anthropology It also contributes to a political anthropology which is aware of its antecedents self reflexive as a discipline conscious of pitfalls and biases and able to locate itself in its academic social and political environment

China-Africa Relations Kathryn Batchelor,Xiaoling Zhang,2017-06-26 The recent rapid growth in China's involvement in Africa is being promoted by both Chinese and African leaders as being conducted in a spirit of cooperation friendship and equality In the media and informally however a different less harmonious picture emerges This book explores how China and Africa really regard each other how official images are manufactured and how informal images are nevertheless shaped and put forward The book covers a wide range of areas where China Africa exchange exists including diplomacy technological cooperation sport culture and arts exchange The book also discusses the historical development of the relationship and how it is likely to develop going forward **New Frontiers in Forensic Linguistics** Monwabisi Ralarala,Russell Kaschula,Georgina Heydon,2019-06-25 The field of forensic linguistics is a niche area that has not enjoyed much participation from the African continent The theme of language and the law in this book is one that straddles two important aspects of the legal history of South Africa in particular and how it has impacted on the country's legal and education systems The declaration by the United Nations of 2019 as The International Year of Indigenous Languages is opportune not only for the launch of this book but for what its research content tells us of the strides taken in ensuring access to justice for all citizens of the world in a language they understand The contributions by authors in this book tell the story of many African citizens and those hailing from beyond our borders who straddle the challenges of linguistic and legal pluralism in

courtrooms across their respective countries It is our hope that the contributions made in this book will assist in ensuring human rights become a reality for global citizens where indigenous voices have not been heard and that these citizens will be free to give their testimonies in a language of their choice and that they may be heard and understood **Indigenous**

Relevance and Irrelevance Jan Strassheim, Hisashi Nasu, 2018-09-24 Relevance drives our actions and channels our attention it shapes how we make sense of the world and communicate with each other Irrelevance spreads a twilight which blurs the line between information we do not want to access and information we cannot access In disciplines as diverse as philosophy sociology the information sciences and linguistics relevance has been proposed as a key concept This book is the first to bring together the often unrelated traditions Researchers from different fields discuss relevance and relate it to the challenges of irrelevance which have so far been neglected despite their significance for our chances of making well informed decisions and understanding others The contributions focus on theoretical and conceptual questions on specific factors and fields and on practical and political implications of relevance and irrelevance as forces which are even stronger when they remain in the background

Ordered Estates Hartnack, Andrew M.C., 2016-07-31 There is a growing body of work on white farmers in Zimbabwe Yet the role played by white women so called farmers wives on commercial farms has been almost completely ignored if not forgotten For all the public role and overt power ascribed to white male farmers their wives played an equally important although often more subtle role in power and labour relations on white commercial farms This soft power took the form of maternalistic welfare initiatives such as clinics schools orphan programmes and women s clubs mostly overseen by a farmer s wife Before and after Zimbabwe s 1980 independence these played an important role in attracting and keeping farm labourers and governing their behaviour After independence they also became crucial to the way white farmers justified their continued ownership of most of Zimbabwe s prime farmland This book provides the first comprehensive analysis of the role that farm welfare initiatives played in Zimbabwe s agrarian history Having assessed what implications such endeavours had for the position and well being of farmworkers before the onset of fast track land reform in the year 2000 Hartnack examines in vivid ethnographic detail the impact that the farm seizures had on the lives of farmworkers and the welfare programmes which had previously attempted to improve their lot
