Sample Book Insights 1 The most frequent calls I receive at the Center for Pediatric Sleep Disorders at Children's Hospital Boston are from parents whose children are sleeping poorly The parents are tired frustrated and often angry Their own relationship has become tense and they are wondering whether there is something inherently wrong with their child 2 The Sleep Center treats sleep problems in children which are usually common throughout families and social environments It is important to note that sleep problems are rarely the result of poor parenting 3 Parents often believe that if their child is a restless sleeper or can't seem to settle down at night it's because he is by nature a poor sleeper However this is rarely the case Virtually all children without major medical or neurological disorders are able to sleep well 4 It may be tempting to assume that your child is one of the few children who have difficulty sleeping but that is almost never the case Most children have a normal ability to fall asleep and remain asleep even if they have a sleep disturbance such as sleepwalking or bedwetting *Solve Your Child's Sleep Problems* M.D. Ferber (Richard), **Getting Your Child To Sleep and Back to Sleep** Vicki Lansky, 2011-10-17 Sleep can be as sweet as this precious new cover Mr Moon in his nightcap adorns this peaceful design with stars in blues and purples surrounded by a soft yellow border This 6 5 x 6 5 trade paperback has 136 pages detailed with floating stars and moons There is a table of contents and an index to quickly reference any specific topic There are 10 chapters including sleeping patterns bedtime routines why babies cry colic sleep walking allowing children in parents beds coping with loss of sleep naptimes bedtimes fears and bad dreams You'll find a wonderful selection of choices appropriate for children's various ages and stages The author provides parents with creative techniques to cease bad habits and patterns Arranged chronologically written with wisdom humor and her understanding of parenting this book is a reassuring guide to childhood sleep [How to Sleep](#) Rafael Pelayo, 2020-12-08 Easy to read and comprehensive This book
