**The Beast and the Sovereign, Volume II** Jacques Derrida, 2017-02-02 Following on from *The Beast and the Sovereign* Volume I this book extends Jacques Derrida s exploration of the connections between animality and sovereignty In this second year of the seminar originally presented in 2002 2003 as the last course he would give before his death Derrida focuses on two markedly different texts Heidegger s 1929 1930 course *The Fundamental Concepts of Metaphysics* and Daniel Defoe s *Robinson Crusoe* As he moves back and forth between the two works Derrida pursues the relations between solitude insularity world violence boredom and death as they supposedly affect humans and animals in different ways Hitherto unnoticed or underappreciated aspects of Robinson Crusoe are brought out in strikingly original readings of questions such as Crusoe s belief in ghosts his learning to pray his parrot Poll and his reinvention of the wheel Crusoe s terror of being buried alive or swallowed alive by beasts or cannibals gives rise to a rich and provocative reflection on death burial and cremation in part provoked by a meditation on the death of Derrida s friend Maurice Blanchot Throughout these readings are juxtaposed with interpretations of Heidegger s concepts of world and finitude to produce a distinctively Derridean account that will continue to surprise his readers      *A History of Late nineteenth Century Drama 1850-1900 Volume II* ,

centuries of texts that have made use of Robinson Crusoe undermine the pervasive belief of mainstream economics that Robinson Crusoe is a benign representative of economic agency and that he like other economic agents can be understood independently of historical and cultural specificity The book provides a detailed account of the appearance of Robinson Crusoe in the economics literature and in a plethora of modern economics texts in which for example we find Crusoe is portrayed as a schizophrenic consumer producer trying to maximize his personal well being Using poststructuralist feminist postcolonial Marxist and literary criticism approaches the authors of the fourteen chapters in this volume examine and critique some of the deepest fundamental assumptions neoclassical economics hold about human nature the political economy of colonization international trade and the pervasive gendered organization of social relations The contributors to this volume can be seen as engaging in the emerging conversation between economists and literary scholars known as the New Economic Criticism They offer unique perspectives on how the economy and economic thought can be read through different disciplinary lenses Economists pay attention to rhetoric and metaphor deployed in economics and literary scholars have found new areas to explore and understand by focusing on economic concepts and vocabulary encountered in literary texts
