Scott C. Dulebohn

Romantic Naturalists Early Environmentalists:

Romantic Naturalists, Early Environmentalists Dr Dewey Hall, 2014-10-28 In his study of Romantic naturalists and early environmentalists Hall claims the creation of the National Trust in the United Kingdom and the National Parks in the United States were both shaped by literature Central to Hall's project are links among Gilbert White William Wordsworth Ralph Waldo Emerson Octavia Hill and John Muir in the context of the vexed relationship between the ecosystem and the machine during the nineteenth century

Romantic Naturalists, Early Environmentalists Dewey W. Hall, 2016-04-08 In his study of Romantic naturalists and early environmentalists Dewey W Hall asserts that William Wordsworth and Ralph Waldo Emerson were transatlantic literary figures who were both influenced by the English naturalist Gilbert White In Part 1 Hall examines evidence that as Romantic naturalists interested in meteorology Wordsworth and Emerson engaged in proto environmental activity that drew attention to the potential consequences of the locomotive's incursion into Windermere and Concord In Part 2 Hall suggests that Wordsworth and Emerson shaped the early environmental movement through their work as poets turned naturalists arguing that Wordsworth influenced Octavia Hill's contribution to the founding of the United Kingdom's National Trust in 1895 while Emerson inspired John Muir to spearhead the United States National Parks movement in 1890 Hall's book traces the connection from White as a naturalist turned poet to Muir as the quintessential early environmental activist who camped in Yosemite with President Theodore Roosevelt Throughout Hall raises concerns about the growth of industrialization to make a persuasive case for literature's importance to the rise of environmentalism

Romantic Ecocriticism Dewey W. Hall, 2016-03-15 Romantic Ecocriticism Origins and Legacies is unique due to its rare assemblage of essays which has not appeared within an edited collection before Romantic Ecocriticism is distinct because the essays in the collection develop transnational and transhistorical approaches to the proto ecological early environmental aspects in British and American Romanticism First the edition's transnational approach is evident through transatlantic connections such as but are not limited to comparisons among the following writers William Wordsworth William Howitt and Henry D Thoreau John Clare and Aldo Leopold Charles Darwin and Ralph W Emerson Second the transhistorical approach of Romantic Ecocriticism is evident in connections among the following writers William Wordsworth and Emily Bronte Thomas Malthus and George Gordon Byron James Hutton and Percy Shelley Erasmus Darwin and Charlotte Smith Gilbert White and Dorothy Wordsworth among others Thus Romantic Ecocriticism offers a dynamic collection of essays dedicated to links between scientists and literary figures interested in natural history

Romantic Sustainability Ben P.

Robertson, 2015-12-24 Romantic Sustainability is a collection of sixteen essays that examine the British Romantic era in ecocritical terms Written by scholars from five continents this international collection addresses the works of traditional Romantic writers such as John Keats Percy Shelley William Wordsworth Lord Byron and Samuel Coleridge but also delves into ecocritical topics related to authors added to the canon more recently such as Elizabeth Inchbald and John Clare The

essays examine geological formations clouds and landscapes as well as the posthuman and the monstrous The essays are grouped into rough categories that start with inspiration and the imagination before moving to the varied types of consumption associated with human interaction with the natural world Subsequent essays in the volume focus on environmental destruction monstrous creations and apocalypse The common theme is sustainability as each contributor examines Romantic ideas that intersect with ecocriticism and relates literary works to questions about race gender religion and identity

Victorian Ecocriticism Dewey W. Hall, 2017-10-16 *Victorian Ecocriticism The Politics of Place and Early Environmental Justice* aims to take up the challenge that Lawrence Buell lays out in *The Future of Environmental Criticism Environmental Crisis and Literary Imagination* 2005 Buell decries For in order to bring environmental justice into ecocriticism a few more articles or conference sessions won't suffice There must be a fundamental rethinking and reworking of the field as a whole Buell 113 While discussions about nature conservation and preservation have been important within

the context of ecocriticism Buell asserts that the holy grail for the field is actually how literary critics engage in discourse about questions of place as space humanized for the purpose of tracing disclosing and advancing the important issue of environmental justice as it applies to human beings animals and plants The fundamental reworking or shift in the field of Victorian Studies really has to do with the dearth of ecocritical publishing about seminal authors and literary texts Victorian Ecocriticism aims to participate in filling that vacuum lack or lacuna by featuring current research about the Victorian era from an ecocritical perspective Victorian Ecocriticism hopes to identify establish and organize its content based on six themes Ecocrisis Ecofeminism Ecogothicism Ecohistoricism Ecotheology and Ecological Interdependence The edited collection thus has two aims First selected places among others featured in the edition will provide environmental contexts often with political implications American rural landscape e g Walden Pond Australian mines British hill country metropolis mill towns the sea and the woods Second the edition includes discussions about various instances of early environmental justice evident during the mid nineteenth century such as but not limited to anti railway campaigns biological egalitarianism labor disputes due to adverse working conditions patterns of displacement reactions to Victorian scientism resistance to enclosure and working class education Victorian Ecocriticism is an interdisciplinary edition It focuses on Victorian literature as the foundational discipline linked to various disciplines such as ecology evolutionary biology natural history and soil science The topics are wide ranging significant and contemporary discussing the politics of place as well as early environmental justice

Natures in Translation Alan Bewell, 2017-01-02 Understanding the dynamics of British colonialism and the enormous ecological transformations that took place through the mobilization and globalized management of natures For many critics Romanticism is synonymous with nature writing for representations of the natural world appear during this period with a freshness concreteness depth and intensity that have rarely been equaled Why did nature matter so much to writers of the late eighteenth and early nineteenth centuries And how did it play such an important role in their understanding of themselves and the world In *Natures in Translation* Alan Bewell argues that there is no Nature in the singular only natures that have undergone transformation through time and across space He examines how writers as disparate as Erasmus and Charles Darwin Joseph Banks Gilbert White William Bartram William Wordsworth John Clare and Mary Shelley understood a world in which natures were traveling and resettling the globe like never before Bewell presents British natural history as a translational activity aimed at globalizing local natures by making them mobile exchangeable comparable and representable Bewell explores how colonial writers in the period leading up to the formulation of evolutionary theory responded to a world in which new natures were coming into being while others disappeared For some of these writers colonial natural history held the promise of ushering in a cosmopolitan nature in which every species through trade and exchange might become a true citizen of the world Others struggled with the question of how to live after the natures they depended upon were gone Ultimately *Natures in Translation* demonstrates that far from being separate from

the dominant concerns of British imperial culture nature was integrally bound up with the business of empire
